INDEX TO VOLUME 25

SUBJECTS[1]

ABSCESS
paranephritic
Paranephritic abscess, Roentgenograms of (ab.), O. Spitzenberger, 379.
tuberculous
Round shadows in thoracic roentgenogram, Case of peculiar (ab.), H. Bauer, 388.
"ACHYLIC CHLORANEMIA"
"Achylic chloranemia," Unusual roentgen observations in (ab.), R. Pape, 516.
ACROMEGALY
Intracranial tumors, Radiation therapy in (ab.), A. Löwbeer, 130.
ACTINOMYCOSIS
Actinomycosis and roentgen therapy, with illustrative case, H. Fried, 308.
Actinomycosis of internal organs, Roentgen treatment of, with protracted fractionated method (ab.), K. Breitländer, 119.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (32).
ADDISON'S DISEASE
Calcifications in suprarenals, Diagnostic importance of (ab.), A. Beutel, 368.
ALBERS-SCHÖNBERG DISEASE. *See* **Osteosclerosis fragilis.**
ANESTHESIA
Advanced malignant disease, Treatment of, L. S. Auster, 207 (209).
evipal
Evipal anesthesia for radium therapy, G. H. Twombly and G. T. Pack, 295.
ANEURYSMS
Abdominal aorta, Aneurysm of (ab.), W. Hollmann, 123.
Abdominal aorta, Diagnosis of aneurysms of (ab.), A. Hartung, 381.
Aneurysm of heart, Typical case of (ab.), H. Regelsberger, 123.
Aneurysm of pulmonary artery (ab.), G. Steiner, 251.
ANIMAL EXPERIMENTATION
Calcium stream as concerned with healing of fractures (ab.), J. J. Moore and A. A. de Lorimier, 377.
Diathermy and regeneration of bone (ab.), E. D. Weinberg and G. E. Ward, 374.
Frog skin, Histologic study of effects of x-rays on, A. E. Light, 734.
Gastric ulcers appearing after roentgen exposure (ab.), R. B. Engelstad, 385.
Observations on rats with transplantable fibrosarcoma treated with cevitamic (ascorbic) acid, J. A. Pollia, 338.
Radium chloride solution, Experimental contribution to effect of (ab.), W. Altschul, 386.
Urinary calculi, Production and solution of: experimental and clinical studies (ab.), C. C. Higgins, 370.
X-rays on developing chick, Effects of, J. M. Essenberg, 739.
ANTRUM
cancer
Sarcoma of antrum, complicated by pregnancy, treated by irradiation, Case of, A. Kean, 321.
ANUS
Non-malignant ano-rectal disease, Indications for roentgen therapy in (ab.), Bensaude, Sollmon, and Marchand, 123.
AORTA
Kymographically registered aortic pulsations, Diagnostic significance of (ab.), A. Kahlstorf and E. Ohnesorge, 519.
Thoracic aorta, Roentgen diagnosis of atherosclerosis of (ab.), A. Baranova, 122.
abdominal
Abdominal aorta, Aneurysm of (ab.), W. Hollmann, 123.
Aneurysms of abdominal aorta, Diagnosis of (ab.), A. Hartung, 381.
thoracic
Pulsatory excursions of thoracic aorta (ab.), G. A. Weltz, 518.
APPENDIX
Appendix (appendiculography), Radiology of (ab.), F. G. Wood, 368.
ARTERIES
pulmonary
Aneurysm of pulmonary artery (ab.), G. Steiner, 251.
ARTERIOGRAPHY
Arteriography of extremities with thorotrast, Technical considerations in (ab.), J. R. Veal and E. M. McFetridge, 243.
Arteriography: roentgenographic study of peripheral arteries of living subject following their injection with radiopaque substance (ab.), E. V. Allen and J. D. Camp, 243.
ARTHRITIS
Fever therapy: results from gonorrheal arthritis, chronic infections (atrophic) arthritis, and other forms of "rheumatism" (ab.), P. S. Hench, C. H. Slocumb, and W. C. Popp, 247.
Roentgen treatment of certain types of arthritis, L. H. Garland, 416.
What should patient with arthritis eat? (ab.), W. Bauer, 243.
gonorrheal
Roentgen treatment of certain types of arthritis, L. H. Garland, 416.
ARTHROKATADYSIS
Arthrokatadysis of hip joint: report of 5 cases, D. H. Levinthal and I. Wolin, 580.
ASTHMA
Constitutional effects of x-rays as determined by blood serum tests (ab.), S. G. Scott and F. Hernaman-Johnson, 384 (385).
ATELECTASIS
Is it empyema or collapsed lung? (ab.), E. Korol, 254.
BACKACHE
Sublaxation of apophyseal articulations with bony impingement as cause of back pain (ab.), L. A. Hadley, 645.
BILIARY SYSTEM
Relations of antrum and cap to gall bladder as factors in emptying gall bladder, Further discussion of, N. B. Newcomer and E. Newcomer, 547.
BIOLOGICAL EXPERIMENTATION
Age and radiosensitivity of *Drosophila* eggs, Relation between, C. Packard, 223.
Biological measurement of radium gamma rays, F. M. Exner and C. Packard, 391.
Daphnia magna as biological dosimeter for soft x-rays, H. Kersten and G. G. Snider, 285.
Hard roentgen rays and gamma rays of radium, Effect of, D. den Hoed, 57 (62).
Heat effect of short and ultra-short electric waves and their specific action (ab.), N. N. Malov, 369.
High speed electrons and their significance in radiation therapy (ab.), R. Glocker, 513.
Mutations of fruit fly, Comparison of effect of roentgen rays on (ab.), A. Pickhan, 119.
Radiation genetic experiments dealing with time factor on fruit fly (ab.), N. W. Timofeeff-Ressovsky and K. G. Zimmer, 513.
BLADDER
Carcinoma of bladder with radon tubes, Treatment of, A. B. Friedman, 319.
Intravenous urography in injuries to genito-urinary tract, W. J. Corcoran, 231.
Tumors of bladder, Roentgen diagnosis and treatment of: their serial study with pneumocystograms, showing results of treatment by irradiation (ab.), G. E. Pfahler and J. H. Vastine, 258.
Urinary bladder, Rupture of (ab.), L. Berger, 762.
urinary
Posterior segmental block-excision of bladder neck with primary closure (ab.), S. H. Harris, 518.
BLOOD
Blood disease as result of irradiation (ab.), H. N. Brinnitzer, 126.
Blood supply of ileo-ceco-colic region in man, Radiographic studies of vascularization of (ab.), E. Rebustello, 249.
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.
changes
Blood changes in patients having carcinoma of cervix of uterus irradiated with 300,000-volt roentgen apparatus: report of 9 cases, S. Richman, 433.
Constitutional effects of x-rays as determined by blood serum tests (ab.), S. G. Scott and F. Hernaman-Johnson, 384.
Transparency of barrier between blood and spinal fluid, Effect of roentgen rays on (ab.), A. O. Natansohn and S. A. Nikitin, 369.
circulation
Radium irradiation of blood vessels in circulatory disturbances, Results of (ab.), W. Schloss, 126.
pressure
Irradiation on blood pressure, Effect of (ab.), S. Bealk and A. Uhrovits, 119.
vessels
Blood vessel tumor of spinal cord in boy aged 9 years, with special reference to new diagnostic syndrome (ab.), W. C. Black and H. K. Faber, 258.
BONES
abnormalities
Multiple exostoses—diaphyseal aclasis (Keith), Some features of case of, N. M. Matheson, 631.
diseases
Fractures, Multiple spontaneous idiopathic symmetrical (ab.), L. A. Milkman, 513.
Hodgkin's granuloma, Changes in bone in (ab.), L. F. Craver and M. M. Copeland, 381.

[1] A number in parentheses following a page number indicates that on that page is to be found a special reference in the text to the indexed subject.

Hypertrophic osteo-arthropathy, E. L. Rypins, 289.
Leontiasis ossea: clinical and roentgenological entity: report of case, J. H. Gemmell, 723.
Osteitis fibrosa cystica and rebal calculi without hypercalcemia (ab.), C. L. Robbins, 244.
Osteochondritis (ab.), J. F. Brailsford, 513.
Osteochondritis dissecans, Contribution concerning (ab.), P. Kröker, 513.
Osteogenic sarcoma of clavicle treated with radiation and fever therapy, H. P. Doub, 355.
Osteomyelitis of skull, Roentgenologic aspects of, K. Kornblum and P. J. Hodes, 566.
Osteopoikilosis, I. S. Hirsch, 349.
Osteopoikilosis, C. G. Sutherland, 470.
Plasma-cell myeloma of right ilium roentgenologically mistaken for giant-cell tumor, E. A. Pohle and W. D. Stovall, 628.
Typhoid diseases of bones (ab.), A. M. Rybak, 369.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.

growth
Retardation of bone growth following roentgen irradiation of extensive nevo-carcinoma of skin in infant four months of age, R. H. Stevens, 538.

regeneration
Diathermy and regeneration of bone (ab.), E. D. Weinberg and G. E. Ward, 374.

tuberculosis
Tuberculosis of knee joint, Our experience with (ab.), V. Schiller and W. Altschul, 382.

tumors
Advanced malignant disease, Treatment of, L. S. Auster, 207 (212).
Bone tumors and irradiation (ab.), L. C. Kress, 259.
Primary bone tumors, Indications for radiation therapy of (ab.), F. Tomanek, 647.

BOOK REVIEWS
Allison, Samuel K., *with* Compton, Arthur H., jt. auth.
Assmann, Herbert, Die klinische Röntgendiagnostik der inneren Erkrankungen, 753.

Williams, Francis H., Radium Treatment of Skin Diseases, Newgrowths, Diseases of the Eyes and Tonsils, 756.
Year Book of Radiology (1935), 755.
Zuppinger, Adolf, Theoretical Foundations and Possibilities of Roentgen Diagnostic Studies of Soft Tissue, 509.

BRAIN
Encephalography (ab.), K. Kornblum and F. C. Grant, 376.

tumors
Encephalography in children (ab.), A. E. Walker, 376.
Intracranial disease, Technic and dosage in roentgen therapy of (ab.), M. Sgalitzer, 374.

BREAST

cancer
Advanced malignant disease, Treatment of, L. S. Auster, 207 (212).
Blood serum tests, Constitutional effects of x-rays as determined by (ab.), S. G. Scott and F. Hernaman-Johnson, 384 (385).
Carcinoma of breast, Post-operative irradiation in (ab.), G. Schwarz, 643.
Carcinoma of breast, Relative value of surgery, radium and roentgen therapy in (ab.), I. Levin, 760.

BRONCHIECTASIS
Bronchiectasis in children, Congenital, G. S. Reitter, 495.
Bronchography (ab.), A. Beutel, 126.

BRONCHOGRAPHY
Bronchography (ab.), A. Beutel, 126.
Iodized oil in bronchography, Practical observations on use of (ab.), L. R. Sante, 514.
Serial bronchography in early diagnosis of bronchial carcinoma (ab.), P. L. Farinas, 514.

BRONCHOLITHS
Broncholiths and stone asthma, E. P. Pendergrass and A. A. de Lorimier, 717.

BRONCHOSCOPY
Pneumothorax, Giant excavation and emphysematous bulla mistaken for: report of two cases (ab.), A. A. Karan and W. Haymaker, 383 (384).

BRONCHUS
Bronchial carcinoma, Serial bronchography in early diagnosis of (ab.), P. L. Farinas, 514.
Carcinoma of bronchus, Silicosis and primary: report of case (ab.), M. J. Fine and J. V. Jaso, 254.

CALCIFICATION
Calcifications in suprarenals, Diagnostic importance of (ab.), A. Beutel, 368.
Calcium in human gall bladder, Relation of cystic duct obstruction to deposition of (ab.), E. C. Cutler and R. Boggs, 248.

CALCIUM
Calcium deposits in liver and its surroundings, Rare roentgenologic findings of (ab.), K. Freese, 382.
Calcium stream as concerned with healing of fractures (ab.), J. J. Moore and A. A. de Lorimier, 377.

CALCULI
Bilateral urinary calculi, with special reference to therapeutic problems (ab.), A. R. Stevens, 250.
Broncholiths and stone asthma, E. P. Pendergrass and A. A. de Lorimier, 717.
Osteitis fibrosa cystica and renal calculi without hypercalcemia (ab.), C. L. Robbins, 244.
Recurrent urolithiasis: etiologic factors and clinical management (ab.), L. D. Keyser, 369.
Renal lithiasis, Present conception of (ab.), V. S. Counseller and J. T. Priestley, 370.
Urinary calculus, Etiology of (ab.), H. P. Winsbury-White, 513.
Urinary calculi, Production and solution of: experimental and clinical studies (ab.), C. C. Higgins, 370.

CANCER
Bronchial carcinoma, Serial bronchography in early diagnosis of (ab.), P. L. Farinas, 514.
Cancer, Distribution of and fight against (ab.), H. R. Schinz, 513.
Cancer of penis, Treatment of (ab.), K. Overhof, 514.
Cancer of transverse colon in 7-year-old boy (ab.), D. B. Pfeiffer and J. K. W. Wood, 244.
Carcinoma at cardia, Roentgen diagnosis of (ab.), W. H. Stewart and H. E. Illick, 257.
Carcinoma of (Primary) bronchus, Silicosis and: report of case (ab.), M. J. Fine and J. V. Jaso, 254.
Carcinoma of rectum: some causes for poor prognosis (ab.), J. A. Bargen and E. T. Leddy, 244.
Carcinoma of uterus, Some reflections regarding, with special consideration of technic in treatment of infected and febrile forms (ab.), A. S. d'Emidio, 514.
Duodenal carcinoma: its relationship to duodenal ulcer, I. S. Startz, 688.
Early cancerous changes in peptic ulcer, Diagnosis of (ab.), A. L. Bloomfield, 244.
Gastric cancer, Early diagnosis of (ab.), F. Schreiber-Ermer, 119.
Malignant lymphoma of gastro-intestinal tract (ab.), A. C. Pattison, 378.
Malignant tumors of testicle, Report on (ab.), W. Bloom, 646.
Pathological rarities in cancer: 2 unusual cases, A. M. Sala, 437.
Retardation of bone growth following roentgen irradiation of an extensive nevo-carcinoma of skin in infant four months of age, R. H. Stevens, 538.
Roentgen carcinoma, Contribution to problem of (ab.), R. Müller, 386.
Roentgen diagnosis of stomach, Wrong diagnosis in (ab.), F. Eisler, 648.
St. Joachimsthal carcinoma of lung, Physical remarks concerning etiology of (ab.), H. Tschelnitz, 382.
Squamous-cell carcinoma of kidney, B. H. Nichols, 152.
Stomach and colon, Coincident scirrhous lesions of: report of cases (ab.), M. L. Sussman, 644.
Stomach and duodenum, Analysis of 1,000 consecutive examinations of, from clinical, roentgenologic, and surgical viewpoints, with particular reference to incidence, diagnosis, and treatment of gastric and duodenal ulcer and carcinoma of stomach (ab.), N. M. Percy and D. S. Beilin, 128.
Thyroid gland, Malignant diseases of (ab.), U. V. Portmann, 388.

patient
Custodial care of cancer patients, A. Lieff, 325.
Shall we tell cancer patients the truth? W. Clarkson and A. Barker, 112.
therapy
Advanced malignant disease, Treatment of, L. S. Auster, 207.
Blood serum tests, Constitutional effects of x-rays as determined by (ab.), S. G. Scott and F. Hernaman-Johnson, 384 (385).
Cancer of cervix, Radiation therapy in (ab.), W. P. Healy, 260.
Cancer of cheek (buccal mucosa); study of 99 cases, with results of treatment at end of five years (ab.), H. E. Martin and O. H. Pflueger, 760.
Cancer of pharynx, tonsil, and extrinsic larynx by divided doses of external radiation, Treatment of (ab.), H. E. Martin and R. F. McNattin, 371.
Carcinoma of bladder with radon tubes, Treatment of, A. B. Friedman, 319.
Carcinoma of breast, Post-operative irradiation in (ab.), G. Schwarz, 643.
Carcinoma of breast, Relative value of surgery, radium and roentgen therapy in (ab.), I. Levin, 760.
Carcinoma of cervix of uterus, Blood changes in patients having, irradiated with 300,000-volt roentgen apparatus: report of 9 cases, S. Richman, 433.
Carcinoma of cervix, Radiation treatment of (ab.), W. P. Healy and A. N. Arneson, 371.
Carcinoma of esophagus, Problem of radiation therapy in (ab.), K. Wasserburger, 120.
Carcinoma of esophagus, Radiation therapy of (ab.), R. Hummel, 376.
Carcinoma of esophagus, Retrograde (transgastric) esophagoscopy for (ab.), G. H. Steele, 515.
Carcinoma of female genital organs, Further experience with protracted fractional dose method in treatment of (ab.), H. Kirchhoff, 379.
Carcinoma of larynx, Few end-results following radiation therapy of (ab.), A. Lambadaridès, 644.
Carcinoma of mouth and pharynx, Curietherapy of (ab.), V. Palumbo, 643.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24.
Carcinoma of tonsils and pillars, Radium therapy of (ab.), A. S. d'Emidio, 645.
Carcinoma of tonsils, Transcutaneous curietherapy of (ab.), L. Mallet, 373.
Chronic cancer cases, Care and treatment of (ab.), I. I. Kaplan, 372.
Continuous irradiation of carcinoma with roentgen rays: super-teleroentgen therapy, My method for (ab.), G. G. Palmieri, 373.
"Coutard" roentgen therapy, Modified (ab.), J. M. Martin and C. L. Martin, 259.
Female pelvis, Radiation therapy of, for benign lesions, with report of 396 cases, V. M. Moore, 600.
Fractional or single massive dose method in treatment of cancer (ab.), A. Frank, 120.
Malignant neoplasms with concentrated fractional dose method with short F. S. D., Treatment of (ab.), H. Chaoul, 372.
Primary rectal carcinoma under radiation treatment: statistical review of 500 cases (ab.), H. H. Bowing and R. E. Fricke, 370.
Roentgen-ray action, Methods of enhancing, A. J. Delario, 617.
Sarcoma of antrum, complicated by pregnancy, treated by irradiation, Case of, A. Kean, 321.
Skin cancer with concentrated fractional dose method (Chaoul), Treatment of (ab.), G. Liebmann, 373.
Teleradium treatment in cancer of larynx and hypopharynx, at Radiologic Clinic of University of Lund, 1931–1933, Primary results of, L. Edling, 267.
Ureteral obstruction in carcinomatous cervix, L. S. Drexler, 315.
Uterine carcinoma during last two decades, Development of radiation therapy of (ab.), F. Gal, 373.
CARBUNCLES
Carbuncles, Roentgen treatment of (ab.), W. B. Firor, 760.
CATARACTS
Calcareous cataracts, Roentgenograms of (ab.), E. von Engelmayer, 761.
CECUM
Migratory cecum (ab.), J. Buckstein, 121.
CELIAC DISEASE
Non-tropical sprue (chronic idiopathic steatorrhea), ed., J. D. Camp, 633.
CELLOPHANE
Absorption and scattering of roentgen rays in air and cellophane (ab.), H. Kustner, 644.
CELLS
Leukemic states, Differential diagnosis of, with particular reference to immature cell types (ab.), R. R. Kracke and H. Garver, 252.
Variable recovery factor of tissue, Considerations of, J. G. Hoffman and M. C. Reinhard, 698.
CHEEK
cancer
Cancer of cheek (buccal mucosa): study of 99 cases, with results of treatment at end of five years (ab.), H. E. Martin and O. H. Pflueger, 760.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (38).
See also under **Mouth.**
CHEST. *See under* **Lungs.**
cancer
Advanced malignant disease, Treatment of, L. S. Auster, 207 (211).
CHILDREN
Bronchiectasis in children, Congenital, G. S. Reitter, 495.
Encephalography in children (ab.), A. E. Walker, 376.
Lungs of children, Frequency of finding of fine pleural shadows in roentgenograms of, and their dependence on roentgenologic technic (ab.), L. Schall and H. Weil, 125.
Tuberculosis in children, Declining death rate from: analysis of tuberculosis deaths in Minnesota from 1915 to 1932 (ab.), R. E. Boynton, 257.
Vertebral articular facets, Developmental changes in, J. G. Kuhns, 498.
CHOLECYSTOGRAPHY
Cholecystographic findings in 300 cases, with comparison of operative findings in cases operated upon, Analysis of, J. B. Johnson and H. C. Harrell, 300.
Gall bladder, Diseases of (ab.), C. P. G. Wakeley, 516.
Oral cholecystography: evaluation of method and suggestions for new nomenclature, E. P. Pendergrass and P. J. Hodes, 261.
Relations of antrum and cap to gall bladder as factors in emptying gall bladder, Further discussion of, N. B. Newcomer and E. Newcomer, 547.
CLAVICLE
sarcoma
Osteogenic sarcoma of clavicle treated with radiation and fever therapy, H. P. Doub, 355.
COLITIS
ulcerative
Gastro-intestinal tract, Changes in, in deficiency states, with special reference to small intestine: roentgenologic and clinical study of 40 cases (ab.), T. T. Mackie and R. E. Pound, 248.
Ulcerative colitis: II—Factor of deficiency states (ab.), T. T. Mackie, 245.
COLON
Colon examinations by contrast enema, Technic of (ab.) A. Determann, 368.
Diverticulosis of colon (ab.), G. Bignami, 121.
Scirrhous lesions of stomach and colon, Coincident: report of cases (ab.), M. L. Sussman, 644.
Transverse colon, Retroposition of: report of two cases (ab.), P. E. Truesdale, 377.
transverse
Cancer of transverse colon in 7-year-old boy (ab.), D. B. Pfeiffer and J. K. W. Wood, 244.
CONTRAST MEDIA
Arteriography of extremities with thorotrast, Technical considerations in (ab.), J. R. Veal and E. M. McFetridge, 243.
Bronchography (ab.), A. Beutel, 126.
Colon examinations by contrast enema, Technic of (ab.), A. Determann, 368.
Intravenous urography in injuries to genito-urinary tract, W. J. Corcoran, 231.
Iodized oil in bronchography, Practical observations on use of (ab.), L. R. Sante, 514.
Peroral pyelography, Note on (ab.), H. Morris, 373.
Placentography, Some reasons for not introducing, into practical radiologic obstetrics (ab.), A. Tommaselli, 380.
Pyelographic media, Historical and practical consideration of (ab.), A. E. Goldstein and B. S. Abeshouse, 514.
Thorium dioxide sol (thorotrast) on human liver, Effects of, L. G. Rigler, R. Koucky, and A. L. Abraham, 521.
CRANIUM
Cerebral neoplasms: diagnosis in absence of generalized intracranial pressure phenomena (ab.), A. E. Bennett and J. J. Keegan, 246.
Encephalography, Observations on (ab.), C. Howard, 246.
Intracranial disease, Technic and dosage in roentgen therapy of (ab.), M. Sgalitzer, 374.
Intracranial tumors, Radiation therapy in (ab.), A. Löw-Beer, 130.
Osteomyelitis of skull, Roentgenologic aspects of, K. Kornblum and P. J. Hodes, 566.
Ventriculograms, Interpretation of, with special reference to tumors of temporal lobe (ab.), A. Torkildsen and A. H. Pirie, 127.
CYSTS
Cysts of duodenum, Enterogenous: report of case and review of literature (ab.), C. E. Gardner, Jr., and D. Hart, 249.
DEFICIENCY DISEASES
Gastro-intestinal tract, Changes in, in deficiency states, with special reference to small intestine: roentgenologic and clinical study of 40 cases (ab.), T. T. Mackie and R. E. Pound, 248.
Non-tropical sprue (chronic idiopathic steatorrhea), ed., J. D. Camp, 633.
Ulcerative colitis: II—Factor of deficiency states (ab.), T. T. Mackie, 245.
DERMATOLOGY
Dermatology, Roentgen therapy in (ab.), J. J. Eller, 246.
Psoriasis, Irradiation in treatment of (ab.), R. Rosh, 246.

Radiotherapy of sympathetic system in general medicine: application to dermatology (ab.), J. Gouin and A. Bienvenue, 374.

DIATHERMY
Arthrokatadysis of hip joint; report of 5 cases, D. H. Levinthal and I. Wolin, 580.
Cutaneous epithelioma, Physical therapy of (ab.), B. Faccini, 126.
Diathermy and regeneration of bone (ab.), E. D. Weinberg and G. E. Ward, 374.
Short wave condenser field, Deep effect and localization in (ab.), F. Nagelschmidt, 760.
Short wave diathermy, Arrangement for measuring temperature in (ab.), K. Overgaard, 368.
Short wave radiation in rectal and vaginal conditions (ab.), M. Delherm and Mme. Fainsilber, 518.

DIET
Arthritis, What should patient with, eat? (ab.), W. Bauer, 243.

DOSAGE
Age and radiosensitivity of *Drosophila* eggs, Relation between, C. Packard, 223.
Air ionization to radiation absorbed, Relation of, and effect on body tissues, W. H. Meyer, 198.
Daphnia magna as biological dosimeter for x-rays, H. Kersten and G. G. Snider, 285.
Distribution of roentgen radiation within average female pelvis for different physical factors of irradiation, A. N. Arneson and E. H. Quimby, 182.
Intensity and dosage near radium needles, G. C. Laurence, 166, 205.
Malignant neoplasms with concentrated fractional dose method with short F. S. D., Treatment of (ab.), H. Chaoul, 372.
Radium dosage calculator (ab.), H. S. Souttar, 386.
Skin cancer with concentrated fractional dose method (Chaoul), Treatment of (ab.), G. Liebmann, 373.
Small chamber dosage meters, Testing of calibration of (ab.), G. Spiegler and K. Juris, 761.

***DROSOPHILA* EGGS**
Age and radiosensitivity of *Drosophila* eggs, Relation between, C. Packard, 223.
Biological measurement of radium gamma rays, F. M. Exner and C. Packard, 391.
Effect of hard roentgen rays and gamma rays of radium, D. den Hoed, 57 (62).
High speed electrons and their significance in radiation therapy (ab.), R. Glocker, 513.

DUODENUM
Duodenal carcinoma: its relationship to duodenal ulcer, I. S. Startz, 688.
Duodenal diverticula (ab.), L. M. del Rosso, 643.
Duodenum, Enterogenous cysts of: report of case and review of literature (ab.), C. E. Gardner, Jr., and D. Hart, 249.
Normal and abnormal results following operation on stomach and duodenum, Roentgenologic determination of (ab.), B. R. Kirklin, 761.
Pathological rarities in cancer: 2 unusual cases, A. M. Sala, 437.
Stomach and duodenum after operation (ab.), S. C. Shanks, 127.
Stomach and duodenum; Analysis of 1,000 consecutive examinations of, from clinical, roentgenologic, and surgical viewpoints, with particular reference to incidence, diagnosis, and treatment of gastric and duodenal ulcer and carcinoma of stomach (ab.), N. M. Percy and D. S. Beilin, 128.
Ulcer of duodenal bulb, Radiologic aspects of, with special regard to evolution and to duration of disease (ab.), G. Baldelli, 383.

DYSMENORRHEA
Irradiation of pituitary in dysmenorrhea, Effect of, R. R. Newell and A. V. Pettit, 424.

EMPHYSEMA
Emphysema of lungs, Contribution to roentgenologic demonstration of (ab.), A. Anthony and W. Schwarz, 519.
Pneumothorax, Giant excavation and emphysematous bulla mistaken for: report of two cases (ab.), A. A. Karan and W. Haymaker, 383.
pulmonary
Chronic pulmonary emphysema, Roentgenologic diagnosis of (ab.), W. W. Fray, 253.

EMPYEMA
Empyema or collapsed lung? (ab.), E. Korol, 254.

ENCEPHALOGRAPHY
Cerebral neoplasms: diagnosis in absence of generalized intracranial pressure phenomena (ab.), A. E. Bennett and J. J. Keegan, 246.
Encephalo- and ventriculograms, Technic and diagnostic evaluation of (ab.), B. Schlesinger, 515.
Encephalography (ab.), K. Kornblum and F. C. Grant, 376.
Encephalography in children (ab.), A. E. Walker, 376.
Encephalography, Observations on (ab.), C. Howard, 246.

ENDOCRINE GLANDS
Endocrine pathology, Roentgen examination in (ab.), J. Morelle and H. Solé, 761.
Roentgen biology and of endocrine system in particular, Discussion of general (ab.), B. Faccini, 376.

EPIDIDYMECTOMY
Epididymal cysts: their etiology and treatment (ab.), E. D'A. McCrea, 518.

EPILEPSY
Cerebral neoplasms: diagnosis in absence of generalized intracranial pressure phenomena (ab.), A. E. Bennett and J. J. Keegan, 246.
Encephalography, Observations on (ab.), C. Howard, 246.

ESOPHAGOSCOPY
Esophagoscopy for carcinoma of esophagus, Retrograde (transgastric), ab., G. H. Steele, 515.

ESOPHAGUS
Peptic esophagitis: new clinical entity (ab.), A. Winkelstein, 247.
cancer
Carcinoma of esophagus, Problem of radiation therapy in (ab.), K. Wasserburger, 120.
Carcinoma of esophagus, Radiation therapy of (ab.), R. Hummel, 376.
Carcinoma of esophagus, Retrograde (transgastric) esophagoscopy for (ab.), G. H. Steele, 515.

EXOSTOSES
Multiple exostoses—diaphyseal aclasis (Keith), Some features of case of, N. M. Matheson, 631.

EXUDATE
Pleural exudate in obstructive atelectasis of lung, Situation of (ab.), N. Westermark, 124.

EYE
Calcareous cataracts, Roentgenograms of (ab.), E. von Engelmayer, 761.
Tumors of conjunctiva, X-rays and radium in treatment of, G. Peter, 745.

FETUS
roentgenography
Generalized fetal edema, Roentgenologic diagnosis of, I. H. Lockwood and F. Y. Kuhlman, 108.

FEVER
Pyrexia in chronic pulmonary tuberculosis, Significance of (ab.), M. Myers, 649.

FEVER THERAPY
Artificial fever as therapeutic agent (ed.), H. P. Doub, 360.
Artificial fever upon hopeless tumor cases, Preliminary study of effect of (ab.), S. I. Warren, 761.
Fever therapy: results from gonorrheal arthritis, chronic infections (atrophic), arthritis, and other forms of "rheumatism" (ab.), P. S. Hench, C. H. Slocumb, and W. C. Popp, 247.
Gonococcic infections, Fever therapy for (ab.), A. U. Desjardins, L. G. Stuhler, and W. C. Popp, 247.
Osteogenic sarcoma of clavicle treated with radiation and fever therapy, H. P. Doub, 355.
Roentgen-ray action, Methods of enhancing, A. J. Delario, 617.

FIBRIN BODIES
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.

FIBROSARCOMA. *See* **Sarcoma.**

FILTERS
Secondary beta rays, Therapeutic importance of (ab.), S. Benner and B. Snellman, 119.
See also under **Roentgen-ray filters.**

FISTULA
Duodenorenal fistula (ab.), G. C. Biondi, 248.

FLUOROSCOPE
Artificial pneumothorax under fluoroscopic guidance, Administration of, J. Blady and L. Cohen, 1.

FOOT
"Pied forcé" or "Deutschländer's disease," A. A. Zeitlin and I. N. Odessky, 215.
flat
Flat foot: consideration of anatomy and physiology of normal foot, pathology and mechanism of flat foot, with resulting roentgen manifestations, M. Kaplan and T. Kaplan, 485.

FOREIGN BODIES
Heart, Functional findings and roentgen diagnosis in foreign bodies in (ab.), M. I. Glikin, 120.
Lung tissue, Bullets in, and their sequences (ab.), K. Ulrich, 120.
Wandering (?) of bullet: case report (ab.), Ulrich, 377.
Wandering of swallowed needle: case report (ab.), L. Bayer and K. Berg, 377.

FRACTURES
Calcium stream as concerned with healing of fractures (ab.), J. J. Moore and A. A. de Lorimier, 377.
Fractures of carpal scaphoid, Treatment of (ab.), R. Soto-Hall and K. O. Haldeman, 377.
Fracture of spinous process of seventh cervical vertebra and first dorsal, Six cases of isolated disruption (ab.), V. Bloch, 645.
Fracture of transverse process of lumbar vertebræ, Roentgenographic appearance of (ab.), L. Ferretti, 388.
Fractures of vertebræ, Prognosis of (ab.), E. W. Hall, 648.
Skull, Treatment of basal fractures of (ab.), Hesse, 127.

GALL BLADDER
Cholecystographic findings in 300 cases, with comparison of operative findings in cases operated upon, Analysis of, J. B. Johnson and H. C. Harrell, 300.

Cystic duct obstruction to deposition of calcium in human gall bladder, Relation of (ab.), E. C. Cutler and R. Boggs, 248.
Gall bladder, Diseases of (ab.), C. P. G. Wakeley, 516.
Oral cholecystography: evaluation of method and suggestions for new nomenclature, E. P. Pendergrass and P. J. Hodes, 261.
Relations of antrum and cap to gall bladder as factors in emptying gall bladder, Further discussion of, N. B. Newcomer and E. Newcomer, 547.

GASTRO-INTESTINAL TRACT
"Achylic chloranemia," Unusual roentgen observations in (ab.), R. Pape, 516.
Acquired diverticulum on anterior wall of stomach (ab.), R. Kaiser, 388.
Advanced malignant disease, Treatment of, L. S. Auster, 207 (211).
Cecum, Migratory (ab.), J. Buckstein, 121.
Colon, Diverticulosis of (ab.), G. Bignami, 121.
Colon examinations by contrast enema, Technic of (ab.), A. Determann, 368.
Cysts of duodenum, Enterogenous: report of case and review of literature (ab.), C. E. Gardner, Jr., and D. Hart, 249.
Duodenal bulb, Roentgenkymography of (ab.), S. L. Sorkin, 516.
Duodenal carcinoma: its relationship to duodenal ulcer, I. S. Startz, 688.
Duodenal diverticula (ab.), L. M. del Rosso, 643.
Duodenal stasis, Chronic intermittent (ab.), J. Friedenwald and M. Feldman, 120.
Early cancerous changes in peptic ulcer, Diagnosis of (ab.), A. L. Bloomfield, 244.
Gastric ulcer and gastric motor function, Roentgenkymograms of (ab.), C. Schilling, 517.
Gastro-intestinal tract in deficiency states, with special reference to small intestine, Changes in: roentgenologic and clinical study of 40 cases (ab.), T. T. Mackie and R. E. Pound, 248.
Ileo-ceco-colic region in man, Radiographic studies of vascularization of blood supply of (ab.). E. Rebustello, 249.
Intestinal anastomoses, Roentgenologic recognition and evaluation of (ab.), E. A. Zimmer, 517.
Intestinal rotation as cause of intestinal obstruction, Anomalies of (ab.), C. E. Gardner, Jr., and D. Hart, 378.
Large bowel, Congenital malformation of (ab.), J. A. Mackenzie, 517.
Malignant lymphoma of gastro-intestinal tract (ab.), A. C. Pattison, 378.
Meckel's diverticulum, Small intestinal invagination caused by (ab.), E. Reiser, 121.
Normal and abnormal results following operation on stomach and duodenum, Roentgenologic determination of (ab.), B. R. Kirklin, 761.
Pancreatic cysts, S. Bruck, 303.
Rectum, Carcinoma of: some causes for poor prognosis (ab.), J. A. Bargen and E. T. Leddy, 244.
Relations of antrum and cap to gall bladder as factors in emptying gall bladder, Further discussion of, N. B. Newcomer and E. Newcomer, 547.
Roentgen diagnosis of stomach, Wrong diagnosis in (ab.), F. Eisler, 648.
Sprue, Non-tropical (chronic idiopathic steatorrhea), ed., J. D. Camp, 633.
Stomach and colon: Coincident scirrhous lesions of: report of cases (ab.), M. L. Sussman, 644.
Stomach and duodenum after operation (ab.), S. C. Shanks, 127.
Transverse colon, Cancer of, in 7-year-old boy (ab.), D. B. Pfeiffer and J. K. W. Wood, 244.
Transverse colon, Retroposition of: report of two cases (ab.), P. E. Truesdale, 377.
Ulcers of esophagus, stomach, and small intestine, Pain in benign (ab.), A. B. Rivers, 249.

GASTROJEJUNOSTOMY
Stomach and duodenum after operation (ab.), S. C. Shanks, 127.

GASTROSCOPY
Peroral gastroscopy, including examination of supradiaphragmatic stomach (ab.), C. Jackson and C. L. Jackson, 256.

GENITO-URINARY TRACT
Advanced malignant disease, Treatment of, L. S. Auster, 207 (213).
Bilateral urinary calculi, with special reference to therapeutic problems (ab.), A. R. Stevens, 250.
Excretory and retrograde urography in certain cases, Necessity for both (ab.), D. N. Eisendrath, 517.
Intravenous urography in injuries to genito-urinary tract, W. J. Corcoran, 231.
Malignant renal neoplasms, Confusing clinical manifestations of (ab.), C. D. Creevy, 762.
Paranephritic abscess, Roentgenograms of (ab.), O. Spitzenberger, 379.
Peroral pyelography, Note on (ab.), H. Morris, 373.
Posterior segmental block-excision of bladder neck with primary closure (ab.), 518.
Recurrent urolithiasis: etiologic factors and clinical management (ab.), L. D. Keyser, 369.
Renal lithiasis, Present conception of (ab.), V. S. Counseller and J. T. Priestley, 370.
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129.
Urea-clearance test in urinary surgery, Value of (ab.), E. W. Riches, 517.
Ureteral obstruction in carcinomatous cervix, L. S. Drexler, 315.
Urinary bladder, Rupture of (ab.), L. Berger, 762.
Urinary calculus, Etiology of (ab.), H. P. Winsbury-White, 513.
Urinary calculi, Production and solution of: experimental and clinical studies (ab.), C. C. Higgins, 370.
Urinary tract in pregnancy and pelvic tumors, Comparison of (ab.), E. C. Baker and J. S. Lewis, Jr., 249.

GOITER
Goiter, Roentgen study of chest in 200 patients with (ab.), S. J. Hawley, 379.

GONOCOCCI, infections
Fever therapy for gonococcic infections (ab.), A. U. Desjardins, L. G. Stuhler, and W. C. Popp, 247.

GRENZ RAYS
General body exposure to Grenz rays in severe pain due to blood vessel-nerve tumor, Beneficial effect of (ab.), G. Schulte and T. Isselstein, 121.
Grenz-ray therapy, Problems in (ab.), F. Kalz, 762.
Inhomogeneous Grenz rays, Quality determinations of (ab.), H. Steps, 379.
Roentgen rays in air and cellophane, Absorption and scattering of (ab.), H. Küstner, 644.

GYNECOLOGY AND OBSTETRICS
Adenomyoma of rectovaginal septum treated by radiologic methods, H. H. Bowing, 46.
Advanced malignant disease, Treatment of, L. S. Auster, 207 (213).
Carcinoma of female genital organs, Further experience with protracted fractional dose method in treatment of (ab.), H. Kirchhoff, 379.
Dysmenorrhea, Effect of irradiation of pituitary in, R. R. Newell and A. V. Pettit, 424.
Female pelvis for benign lesions, Radiation therapy of, with report of 396 cases, V. M. Moore, 600.
Generalized fetal edema, Roentgenologic diagnosis of, I. H. Lockwood and F. Y. Kuhlman, 108.
Gynecological bleedings, Radium therapy in (ab.), H. Naujoks and H. Hoffmann, 121.
Hysterosalpingography in sterility of women, Therapeutic importance of (ab.), J. Grünthal and R. Kleitsman, 380.
Menosymptomatic metrorrhagia in climacterium, Indications for roentgen therapy in (ab.), M. C. Béclère, 380.
Obstetrics, X-rays in (ab.), K. Heyrowsky, 122.
Placentography, Some reasons for not introducing, into practical radiologic obstetrics (ab.), A. Tommaselli, 380.
Radiation therapy with short F. S. D. in gynecology (ab.), W. Schaefer, 380.
Roentgen-ray dosimetry in "third dimension" in gynecology (ab.), F. Friedl, 122.
Short wave radiation in rectal and vaginal conditions (ab.), M. Delherm and Mme. Fainsilber, 518.
Sterility and x-rays (ab.), M. Huhner, 250.
Urinary tract in pregnancy and pelvic tumors, Comparison of (ab.), E. C. Baker and J. S. Lewis, Jr., 249.
Uterine bleeding, Effect of roentgen therapy of medulla oblongata on (ab.), A. Kukowka, 380.

HAND, tumors
Primary newgrowths involving hand (ab.), B. F. Schreiner and W. H. Wehr, 390.

HAY FEVER
Hay fever and rhinitis vasomotoria, Experience in treatment of (ab.), L. Pokorny, 122.

HEART
Adhesive pericarditis, Roentgenkymograph as new aid in diagnosis of (ab.), S. E. Johnson, 380.
Aneurysm of heart, Typical case of (ab.), H. Regelsberger, 123.
Atherosclerosis of thoracic aorta, Roentgen diagnosis of (ab.), A. Baranova, 122.
Cardiac measurements in dorsoventral and oblique projections, Clinical value of (ab.), J. G. Dillon and J. B. Gurewitsch, 762.
Cardiospasm or hiatus-spasm (?), ab., T. Bársony and E. Koppenstein, 123.
Congestive heart failure, Localized pleural effusion accompanying: report of 2 cases, E. L. Shiflett, 429.
Foreign bodies in heart, Functional findings and roentgen diagnosis in (ab.), M. I. Glikin, 120.
Goiter, Roentgen study of chest in 200 patients with (ab.), S. J. Hawley, 379.
Heart, Relation of shape of, to shape of chest, with special reference to anteroposterior dimensions and morphology of various normal heart types: contribution to question of accuracy of ordinary roentgenological methods of heart measurement (ab.), H. Roesler, 250.

HEMOPNEUMOTHORAX. *See under* **PNEUMOTHORAX.**

HIP JOINT
Arthrokatadysis of hip joint: report of 5 cases, D. H. Levinthal and I. Wolin, 580.
Coxa magna: condition of hip related to coxa plana (ab.), A. B. Ferguson and M. B. Howorth, 251.
Otto's disease and other forms of protrusio acetabuli (ab.), K. Overgaard, 123.

HODGKIN'S DISEASE. *See* **LYMPHOGRANULOMA.**

HYDATID DISEASE
Hydatid disease of lung, Radiomorphologic appearance of (ab.), R. Vercesi, 382.
HYSTEROSALPINGOGRAPHY
Hysterosalpingography in sterility of women, Therapeutic importance of (ab.), J. Grünthal and R. Kleitsman, 380.
ILIUM
Plasma-cell myeloma of right ilium roentgenologically mistaken for giant-cell tumor, E. A. Pohle and W. D. Stovall, 628.
INFLAMMATIONS
Inflammatory disease, Experimental foundations of roentgen therapy in acute (ab.), J. P. Mischtschenko, M. M. Fomenko, T. F. Feszenko, S. N. Ledanow, and A. W. Morgatschow, 123.
INTESTINES, diverticula
Colon, Diverticulosis of (ab.), G. Bignami, 121.
Meckel's diverticulum, Small intestinal invagination caused by (ab.), E. Reiser, 121.
obstruction
Intestinal rotation as cause of intestinal obstruction, Anomalies of (ab.), C. E. Gardner, Jr., and D. Hart, 378.
tuberculosis
Intestinal tuberculosis of ulcerating or cicatrizing type and its relationship to pulmonary tuberculosis (ab.), G. da Empoli, 129.
See also under **Gastro-intestinal tract.**
KIDNEYS
Cortical renal tumors, Pre-operative irradiation of (ab.), C. A. Waters, 646.
Intravenous urography in injuries to genito-urinary tract, W. J. Corcoran, 231.
Malignant renal neoplasms, Confusing clinical manifestations of (ab.), C. D. Creevy, 762.
Paranephritic abscess, Roentgenograms of (ab.), O. Spitzenberger, 379.
calculi
Renal lithiasis, Present conception of (ab.), V. S. Counseller and J. T. Priestley, 370.
cancer
Squamous-cell carcinoma of kidney, B. H. Nichols, 152.
tumors
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129.
KNEE JOINT
Intercondyloid fossa of knee joint, Roentgen examination of, G. Danelius and L. F. Miller, 605.
Pelligrini-Stieda's disease (post-traumatic calcification of collateral tibial ligament of knee (ab.), M. Ritvo and J. Resnik, 124.
tuberculosis
Tuberculosis of knee joint, Our experience with (ab.), V. Schiller and W. Altschul, 382.
KÜMMEL'S DISEASE
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
LARYNX
Epitheliomas of pharynx and larynx, Roentgen therapy of (ab.), M. Lenz, C. C. Coakley, and A. P. Stout, 245.
cancer
Advanced malignant disease, Treatment of, L. S. Auster, 207 (210).
Cancer of pharynx, tonsil, and extrinsic larynx by divided doses of external radiation, Treatment of (ab.), H. E. Martin and R. F. McNattin, 371.
Carcinoma of larynx, Few end-results following roentgen therapy of (ab.), A. Lambadaridès, 644.
Teleradium treatment in cancer of larynx and hypopharynx, at Radiologic Clinic of University of Lund, 1931–1933, Primary results of, L. Edling, 267.
tuberculosis
Tuberculosis of larynx and neck, Roentgenologic study of (ab.), H. K. Taylor and L. Nathanson, 389.
Tuberculous laryngitis and of pulmonary tuberculosis, Some observations on roentgen therapy of (ab.), B. Faccini, 390.
LEAD POISONING
Biochemical behavior of lead in body (ab.), J. C. Aub, 251.
Epidemiology of lead poisoning (ab.), A. J. Lanza, 251.
LEIOMYOSARCOMA. *See* **SARCOMA.**
LEONTIASIS OSSIUM
Leontiasis ossea: clinical and roentgenological entity: report of case, J. H. Gemmell, 723.
LEUKEMIA
Leukemia: diagnosis and treatment (ab.), N. Rosenthal and W. Harris, 252.
Leukemic states, Differential diagnosis of, with particular reference to immature cell types (ab.), R. R. Kracke and H. Garver, 252.
LEUKOCYTES
Thymus, Does it influence number of granulocytes? (ab.), S. Radojevic and A. Hahn, 388.
LIGHT THERAPY
Arthrokatadysis of hip joint; report of 5 cases, D. H. Levinthal and I. Wolin, 580.
LIPOSARCOMA. *See* **SARCOMA.**
LIPS, cancer
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (34).
LIVER
Calcium deposits in liver and its surroundings, Rare roentgenologic findings of (ab.), K. Freese, 382.
Thorium dioxide sol (thorotrast) on human liver, Effects of, L. G. Rigler, R. Koucky, and A. L. Abraham, 521.
hemangioma
Pathological rarities in cancer: 2 unusual cases, A. M. Sala, 437.
LUNGS
Artificial pneumothorax under fluoroscopic guidance, Administration of, J. Blady and L. Cohen, 1.
Bullets in lung tissue and their sequences (ab.), K. Ulrich, 120.
Chronic pulmonary emphysema, Roentgenologic diagnosis of (ab.), W. W. Fray, 253.
Congenital cysts of lung, Diagnosis of (ab.), C. de Lange and M. de Bruin, 125.
Cystic lung, Infected (ab.), E. Zdansky, 125.
Emphysema of lungs, Contribution to roentgenologic demonstration of (ab.), A. Anthony and W. Schwarz, 519.
Empyema or collapsed lung? (ab.), E. Korol, 254.
Expiratory roentgenogram in diagnosis of incomplete pneumothorax, Superior value of (ab.), S. Greenberg, 384.
Exudates of pleura and focal pneumonias in abdominal diseases (ab.), L. Udvardy, 254.
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.
Fibrin bodies in pleural cavity, with report of three cases (ab.), A. Shamaskin and J. Rogoff, 519.
Fluoroscopic examination of lungs, Studies of value of (ab.), W. Voigtländer, 519.
Hydatid disease of lung, Radiomorphologic appearance of (ab.), R. Vercesi, 382.
Hypertrophic osteo-arthropathy, E. L. Rypins, 289.
Lobes of lung and interlobar fissures, Study of roentgenologic appearance of, J. Levitin and H. Brunn, 651.
Lobulus accessorius, Roentgen appearance of (ab.), J. S. Bejlin, 519.
Malignant neoplasms of bronchus and lungs, Further experience with roentgen therapy in (ab.), G. Herrnheimer, 125.
Pathology to epidemiology in tuberculosis, From: softening of caseous tubercle and results (ab.), E. R. Long, 257.
Pleural adhesions preventing effective pneumothorax collapse, Rôle of roentgenologist in proper management of, F. Baum, 730.
Pleural exudate in obstructive atelectasis of lung, Situation of (ab.), N. Westermark, 124.
Pleural shadows in roentgenograms of lungs of children, Frequency of finding of fine, and their dependence on roentgenologic technic (ab.), L. Schall and H. Weil, 125.
Pneumothorax, Giant excavation and emphysematous bulla mistaken for: report of two cases (ab.), A. A. Karan and W. Haymaker, 383.
Pulmonary lesions, Discrete, roentgenologically considered, J. M. Fruchter, 609.
Pulmonary manifestations in human tularemia: clinical study based on 35 unselected cases (ab.), S. D. Blackford, 254.
Pulmonary manifestations in human tularemia: roentgenologic study based on 34 unselected cases (ab.), V. W. Archer, S. D. Blackford, and J. E. Wissler, 254.
Pulmonary tuberculosis, Interpretation of roentgenograms in (ab.), H. K. Taylor, 258.
Pulmonary ventilation, Roentgenological study of: method for prediction of normal pulmonary capacities based upon roentgen measurements (ab.), W. W. Fray, 644.
Rib defects simulating pulmonary cavitation, C. Jones, 533.
Round shadows in thoracic roentgenogram, Case of peculiar (ab.), H. Bauer, 388.
Spontaneous hemopneumothorax, Case of (ab.), J. L. Frey, 384.
Tuberculosis among employees of Minneapolis schools (ab.), F. E. Harrington, J. A. Myers, and I. Levine, 257.
Tuberculosis in children, Declining death rate from: analysis from tuberculosis deaths in Minnesota from 1915 to 1932 (ab.), R. E. Boynton, 257.
X-ray chest examinations among 2,500 workers in heavy industry, Results of (ab.), L. M. Warfield, 253.
cancer
St. Joachimsthal carcinoma of lung, Physical remarks concerning etiology of (ab.), H. Tschelnitz, 382.
syphilis
Pulmonary syphilis in adults, with report of case, W. W. Robinson, 596.
Syphilitic gumma of lung: case report, P. E. Wigby and C. B. Sanders, 629.
LYMPH NODES
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (40).
Lymphosarcoma: clinical, pathologic, and radiotherapeutic study, with report of 30 cases (ab.), M. Cutler, 382.
Tuberculous lymphadenitis and orchiepididymitis, Roentgen therapy of (ab.), B. Faccini, 256.
LYMPHADENOMA
Lymphosarcoma: clinical, pathologic, and radiotherapeutic study, with report of 30 cases (ab.), M. Cutler, 382.
LYMPHOBLASTOMA. *See* **LYMPHOGRANULOMA.**

LYMPHOGRANULOMA
Hodgkin's granuloma, Changes in bone in (ab.), L. F. Craver and M. M. Copeland, 381.
Lymphoblastoma with paraplegia and prolonged irradiation (ab.), L. F. Wheatley, 251.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
LYMPHOSARCOMA. *See* **SARCOMA, LYMPHOSARCOMA.**
MARBLE BONE DISEASE. *See* **OSTEOSCLEROSIS FRAGILIS.**
MEDIASTINUM
Mediastinitis (ab.), K. Kornblum and L. H. Osmond, 254.
MEDULLA OBLONGATA
Uterine bleeding, Effect of roentgen therapy of medulla oblongata on (ab.), A. Kukowka, 380.
"MENFORMON" (HORMONE)
Radium irradiation of blood vessels in circulatory disturbances, Results of (ab.), W. Schloss, 126.
MENINGITIS, tuberculous
Tuberculosis in children, Declining death rate from: analysis of tuberculosis deaths in Minnesota from 1915 to 1932 (ab.), R. E. Boynton, 257.
MENOPAUSE
Monosymptomatic metrorrhagia in climacterium, Indications for roentgen therapy in (ab.), M. C. Béclère, 380.
MOUTH, cancer
Carcinoma of mouth and pharynx, Curietherapy of (ab.), V. Palumbo, 643.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24.
leukoplakia
Cancer of cheek (buccal mucosa): study of 99 cases, with results of treatment at end of five years (ab.), H. E. Martin and O. H. Pflueger, 760.
MYXOSARCOMA. *See* **SARCOMA.**
NATIONAL HOUSING ACT
Information concerning the National Housing Act as it may affect radiologists (ed.), 750.
NECK, tuberculosis
Tuberculosis of larynx and neck, Roentgenologic study of (ab.), H. K. Taylor and L. Nathanson, 389.
NERVOUS SYSTEM, SYMPATHETIC
Nervous system, Roentgen therapy of sympathetic (ab.), Delherm and Beau, 129.
Radiotherapy of sympathetic system in general medicine: application to dermatology (ab.), J. Gouin and A. Bienvenue, 374.
Roentgen therapy of sympathetic (ab.), C. Guarini, 388.
Vegetative nervous system, Effect of roentgen therapy on (ab.), H. Langer, 520.
Vegetative nervous system, Possible effects of roentgen and radium rays on (ab.), M. Nemenow, 520.
NERVES
X-ray diffraction studies on nerve, F. O. Schmitt, R. S. Bear, and G. L. Clark, 131.
NEURALGIA
Neuralgia, Radiation therapy of (ab.), A. Zimmern, P. Cottenot, and J. A. Chavany, 520.
brachial
Spondylitis deformans of cervical spine as cause of so-called brachial neuralgia and other neuralgiform pains: question of therapy (ab.), A. Ryden, 387.
NEUROSARCOMA. *See* **SARCOMA.**
NEVI
Basal-cell epithelioma, Histogenesis of, H. Montgomery, 8 (12).
Dermatology, Roentgen therapy in (ab.), J. J. Eller, 246.
Retardation of bone growth following roentgen irradiation of extensive nevo-carcinoma of skin in infant four months of age, R. H. Stevens, 538.
OBITUARY
Allen, Bundy, 750.
Bloodgood, Joseph Colt, 638.
Podlasky, Harry B., 641, 752.
ORTHOPEDIC LIBRARY, 638.
OSTEITIS FIBROSA
hyperparathyroidism, Roentgen therapy of (ab.), E. A. Merritt and E. M. McPeak, 255.
Osteitis fibrosa cystica and renal calculi without hypercalcemia (ab.), C. L. Robbins, 244.
OSTEO-ARTHROPATHY, hypertrophic pulmonary
Hypertrophic osteo-arthropathy, E. L. Rypins, 289.
OSTEOCHONDRITIS
Osteochondritis (ab.), J. F. Brailsford, 513.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
dissecans
Osteochondritis dissecans, Contribution concerning (ab.), P. Kröker, 513.
OSTEOMYELITIS
Osteomyelitis of skull, Roentgenologic aspects of, K. Kornblum and P. J. Hodes, 566.
OSTEOPOIKILOSIS
Osteopoikilosis, I. S. Hirsch, 349.
Osteopoikilosis, C. G. Sutherland, 470.
OSTEOPOIKILOSIS, *See also under* **OSTEOSCLEROSIS FRAGILIS**
OSTEOSCLEROSIS FRAGILIS
Marble bone disease, Contribution to factor of heredity in (ab.), A. Pagenstecher, 119.
OTTO'S DISEASE. *See under* **HIP JOINT.**
PAGET'S DISEASE (of bone)
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
PAIN
Advanced malignant disease, Treatment of, L. S. Auster, 207 (208).
PALATE, cancer
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (38).
PANCREAS, cysts
Pancreatic cysts, S. Bruck, 303.
PARATHYROID, diseases
Hyperparathyroidism, Roentgen therapy of (ab.), E. A. Merritt and E. M. McPeak, 255.
Osteitis fibrosa cystica and renal calculi without hypercalcemia (ab.), C. L. Robbins, 244.
PELLIGRINI-STIEDA'S DISEASE. *See under* **KNEE JOINT.**
PELVIMETRY
Obstetrics, X-rays in (ab.), K. Heyrowsky, 122.
Pelvimetry, Orthodiagraphic principle in (ab.), E. von Engelmayer, 383.
Roentgen mensuration by stereoroentgenometry, C. R. Johnson, 492.
PELVIS
Distribution of roentgen radiation within average female pelvis for different physical factors of irradiation, A. N. Arneson and E. H. Quimby, 182.
Otto's disease and other forms of protrusio acetabuli (ab.), K. Overgaard, 123.
Radiation therapy of female pelvis for benign lesions, with report of 396 cases, V. M. Moore, 600.
PENIS
Cancer of penis, Treatment of (ab.), K. Overhof, 514.
PEPTIC ULCER
Cancerous changes in peptic ulcer, Diagnosis of early (ab.), A. L. Bloomfield, 244.
Duodenal carcinoma: its relationship to duodenal ulcer, I. S. Startz, 688.
Gastric and duodenal ulcer and carcinoma of stomach, Analysis of 1,000 consecutive examinations of stomach and duodenum from clinical, roentgenologic, and surgical viewpoints, with particular reference to incidence, diagnosis and treatment of (ab.), N. M. Percy and D. S. Beilin, 128.
Gastric ulcer and gastric motor function, Roentgenkymograms of (ab.), C. Schilling, 517.
Gastric ulcers appearing after roentgen exposure (ab.) R. B. Engelstad, 385.
Jejunal ulcer, Roentgenologic evidence of healing of (ab.), J. Buckstein, 383.
Perforated "peptic" ulcers, Treatment of (ab.), H. H. Trout, 255.
Roentgen diagnosis of stomach, Wrong diagnosis in (ab.), F. Eisler, 648.
Ulcer of duodenal bulb, Radiologic aspects of, with special regard to evolution and to duration of disease (ab.), G. Baldelli, 383.
Ulcer of esophagus, stomach, and small intestine, Pain in benign (ab.), A. B. Rivers, 249.
PHARYNX
Carcinoma of mouth and pharynx, Curietherapy of (ab.), V. Palumbo, 643.
Epitheliomas of pharynx and larynx, Roentgen therapy of (ab.), M. Lenz, C. C. Coakley, and A. P. Stout, 245.
Retropharyngeal tumors (ab.), L. Natanson, 646.
cancer
Cancer of pharynx, tonsil, and extrinsic larynx by divided doses of external radiation, Treatment of (ab.), H. E. Martin and R. F. McNattin, 371.
Teleradium treatment in cancer of larynx and hypopharynx, at Radiologic Clinic of University of Lund, 1931–1933, Primary results of, L. Edling, 267.
PITUITARY BODY
Dysmenorrhea, Effect of irradiation of pituitary in, R. R. Newell and A. V. Pettit, 424.
Hyperthyroidism by roentgen irradiation of hypophysis, Treatment of (ab.), J. Borak, 389.
Pituitary tumors, Further observations on roentgen treatment of (ab.), G. E. Pfahler and E. W. Spackman, 647.
PLACENTOGRAPHY
Placentography, Some reasons for not introducing, into practical radiologic obstetrics (ab.), A. Tommaselli, 380.
PLEURA
Fibrin bodies in pleural cavity, with report of three cases (ab.), A. Shamaskin and J. Rogoff, 519.
PLEURISY with effusion
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.
Localized pleural effusion accompanying congestive heart failure: report of two cases, E. L. Shiflett, 429.
PNEUMOCYSTOGRAPHY
Roentgen diagnosis and treatment of tumors of bladder: their serial study with pneumocystograms, showing results of treatment by irradiation (ab.), G. E. Pfahler and J. H. Vastine, 258.
PNEUMONOCONIOSIS
Silicosis and primary carcinoma of bronchus: report of case (ab.), M. J. Fine and J. V. Jaso, 254.
PNEUMOPYELOGRAPHY
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129 (130).

PNEUMOTHORAX
Artificial pneumothorax under fluoroscopic guidance, Administration of, J. Blady and L. Cohen, I.
Fibrin bodies in artificial pneumothorax, H. K. Taylor, and I. D. Bobrowitz, 274.
Incomplete pneumothorax, Superior value of expiratory roentgenogram in diagnosis of (ab.), S. Greenberg, 384.
Obstructive atelectasis of lung, Situation of pleural exudate in (ab.), N. Westermark, 124.
Pathology to epidemiology in tuberculosis, From: softening of caseous tubercle and results (ab.), E. R. Long, 257.
Pleural adhesions preventing effective pneumothorax collapse, Rôle of roentgenologist in proper management of, F. Baum, 730.
Pneumothorax, Giant excavation and emphysematous bulla mistaken for: report of two cases (ab.), A. A. Karan and W. Haymaker, 383.
Spontaneous hemopneumothorax, Case of (ab.), J. L. Frey, 384.
PREGNANCY
Sarcoma of antrum, complicated by pregnancy, treated by irradiation, Case of, A. Kean, 321.
Urinary tract in pregnancy and pelvic tumors, Comparison of (ab.), E. C. Baker and J. S. Lewis, Jr., 249.
PROSTATE
Calculi, Prostatic (ab.), L. H. Baretz, 125.
PROTECTION
Dangers of roentgenoscopy and methods of protection against them (1. General review of problem), ab., E. T. Leddy, E. I. L. Cilley, and B. R. Kirklin, 384.
Protection against radiation and scattered radiation in eighteen modern roentgen departments, Tests of (ab.), G. Heise, 644.
Roentgen and radium spectrum from standpoint of practical radiation therapist, Comparison of (ab.), R. R. Rathbone, 515.
PSORIASIS
Psoriasis, Irradiation in treatment of (ab.), R. Rosh, 246.
PYELOGRAPHY
Cortical renal tumors, Pre-operative irradiation of (ab.), C. A. Waters, 646.
Peroral pyelography, Note on (ab.), H. Morris, 373.
Pyelographic media, Historical and practical consideration of (ab.), A. E. Goldstein and B. S. Abeshouse, 514.
PYELOSCOPY
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129 (130).
r (unit)
Intensity and dosage near radium needles, G. C. Laurence, 166.
RADIATION EFFECTS
Alpha rays in living substances, Length of path of (ab.) F. Hercik and M. Dusek, 385.
Variable recovery factor of tissue, Considerations of, J. G. Hoffman and M. C. Reinhard, 698.
RADIOLOGICAL SOCIETY OF NORTH AMERICA
Annual Meeting, Detroit, 1935, 113, 239, 361, 503–508, 635–637.
RADIOLOGY, graduate study
Graduate study in radiology, 635.
medico-legal
Some lawsuits I have met and some of lessons to be learned from them, I. S. Trostler, 329, 451, 586, 708.
practice of
Laboratory—its genesis (ed.), M. J. Hubeny, 236.
RADIUM
Adenomyoma of rectovaginal septum treated by radiologic methods, H. H. Bowing, 46.
Benign lesions of skin, Radium dosage and technic in (ab.), H. Morrow and L. R. Taussig, 648.
Biological measurement of radium gamma rays, F. M. Exner and C. Packard, 391.
Blood disease as result of irradiation (ab.), H. N. Brinnitzer, 126.
Blood vessels in circulatory disturbances, Results of radium irradiation of (ab.), W. Schloss, 126.
Cancer of cervix, Radiation therapy in (ab.), W. P. Healy, 260.
Carcinoma of bladder with radon tubes, Treatment of, A. B. Friedman, 319.
Carcinoma of breast, Relative value of surgery, radium and roentgen therapy in (ab.), I. Levin, 760.
Carcinoma of cervix, Radiation treatment of (ab.), W. P. Healy and A. N. Arneson, 371.
Carcinoma of esophagus, Problem of radiation therapy in (ab.), K. Wasserburger, 120.
Carcinoma of female genital organs, Further experience with protracted fractional dose method in treatment of (ab.), H. Kirchhoff, 379.
Carcinoma of mouth and pharynx, Curietherapy of (ab.), V. Palumbo, 643.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24.
Carcinoma of tonsils and pillars, Radium therapy of (ab.), A. S. d'Emidio, 645.
Carcinoma of tonsils, Transcutaneous curietherapy of (ab.), L. Mallet, 373.
Carcinoma of uterus, Some reflections regarding, with special consideration of technic in treatment of infected and febrile forms (ab.), A. S. d'Emidio, 514.
Classification of tumors from standpoint of radiosensitiveness (ab.), A. U. Desjardins, 259.
Dose distribution in circular surface applicator (ab.), H. D. Griffith and K. G. Zimmer, 126.
Esophagoscopy for carcinoma of esophagus, Retrograde (transgastric), ab., G. H. Steele, 515.
Evipal anesthesia for radium therapy, G. H. Twombly and G. T. Pack, 295.
Female pelvis for benign lesions, Radiation therapy of, with report of 396 cases, V. M. Moore, 600.
Gamma rays in r-units, Dosage of (ab.), J. Murdoch and E. Stahel, 375.
Gynecological bleedings, Radium therapy in (ab.), H. Naujoks and H. Hoffmann, 121.
Gynecology, Roentgen-ray dosimetry in "third dimension" in (ab.), F. Friedl, 122.
Hard roentgen rays and gamma rays of radium, Effect of, D. den Hoed, 57.
Intensity and dosage near radium needles, G. C. Laurence, 166, 635 (cor.).
Irradiation of chicken embryo *in vitro* and *in vivo* with gamma rays of radium (ab.), C. W. Wilson, A. F. Hughes, A. Glücksmann, and F. G. Spear, 119.
Lost radium in emergency, Simple method of locating, A. C. Omberg, 105.
Malignant tumors, Coutard roentgen treatment of (ab.), J. Nielsen, 375.
Mutations in fruit fly, Comparison of effect of roentgen rays on (ab.), A. Pickhan, 119.
Photometric method of dosage in radium practice, Our experience with (ab.), A. Hamann, 645.
Physical aspects of various qualities of radiation (ab.), R. S. Landauer, 255.
Primary rectal carcinoma under radiation treatment: statistical review of 500 cases (ab.), H. H. Bowing and R. E. Fricke, 370.
Radium chloride injections, Report concerning effect of (ab.), W. Altschul, 385.
Radium chloride solution, Experimental contribution to effect of (ab.), W. Altschul, 386.
Radium dosage calculator (ab.), H. S. Souttar, 386.
Radium dosimetry, Practical experiences in: I.—general remarks (ab.), H. Holthusen, 645.
Radium teletherapy, Present and future of (ab.), E. R. Carling and F. M. Allchin, 520.
Roentgen and radium spectrum from standpoint of practical radiation therapist, Comparison of (ab.), R. R. Rathbone, 376, 515.
Roentgen carcinoma, Contribution to problem of (ab.), R. Müller, 386.
Roentgen rays within human body, Distribution of (ab.), E. H. Quimby, M. M. Copeland, and R. C. Woods, 375.
St. Joachimsthal carcinoma of lung, Physical remarks concerning etiology of (ab.), H. Tschelnitz, 382.
Sarcoma of antrum, complicated by pregnancy, treated by irradiation, Case of, A. Kean, 321.
Teleradium treatment in cancer of larynx and hypopharynx, at Radiologic Clinic of University of Lund, 1931–1933, Primary results of, L. Edling, 267.
Thyroid gland, Malignant diseases of (ab.), U. V. Portmann, 388.
Tumors of conjunctiva, X-rays and radium in treatment of, G. Peter, 745.
Vegetative nervous system, Possible effects of roentgen and radium rays on (ab.), M. Nemenow, 520.
RECTOVAGINAL SEPTUM
Adenomyoma of rectovaginal septum treated with radiologic methods, H. H. Bowing, 46.
RECTUM
Carcinoma of rectum: some causes for poor prognosis (ab.), J. A. Bargen and E. T. Leddy, 244.
Non-malignant ano-rectal disease, Indications for roentgen therapy in (ab.), Bensaude, Solomon, and Marchand, 123.
Primary rectal carcinoma under radiation treatment: statistical review of 500 cases (ab.), H. H. Bowing and R. E. Fricke, 370.
RHABDOMYOSARCOMA. *See* **SARCOMA.**
RHEUMATISM
Fever therapy: results from gonorrheal arthritis, chronic infectious (atrophic) arthritis, and other forms of "rheumatism" (ab.), P. S. Hench, C. H. Slocumb, and W. C. Popp, 247.
Radium chloride injections, Report concerning effect of (ab.), W. Altschul, 385.
RIBS
Rib defects simulating pulmonary cavitation, C. Jones, 533.
ROENTGENKYMOGRAPH
Roentgenkymograph as new aid in diagnosis of adhesive pericarditis (ab.), S. E. Johnson, 380.
ROENTGENOSCOPY
Roentgenoscopy and methods of protection against them, Dangers of (general review of problem), (ab.), E. T. Leddy, E. I. L. Cilley, and B. R. Kirklin, 384.
ROENTGEN-RAY, apparatus
Automatic filter safety device with time control (ab.), Janker, 368.
Calibration of small chamber dosage meters, Testing of (ab.), G. Spiegler and K. Juris, 761.

Colon examinations by contrast enema, Technic of (ab.), A Determann, 368.
Comparison photometer and its use in determining distribution of radiation in phantom, M. M. D. Williams, 55.
Continuous irradiation of carcinoma with roentgen rays: super-teleroentgen therapy, My method for (ab.), G. G. Palmieri, 373.
Diathermy and regeneration of bone (ab.), E. D. Weinberg and G. E. Ward, 374.
High speed electrons and their significance in radiation therapy (ab.), R. Glocker, 513.
Pelvimetry, Orthodiagraphic principle in (ab.), E. von Engelmayer, 383.
Roentgen mensuration by stereoroentgenometry, C. R. Johnson, 492.
Scattered radiation emitted by patients undergoing roentgen deep therapy (ab.), H. W. Ernst and P. Ott, 643.
Short rays in sun spectrum, New method of measuring (ab.), J. Brinkmann, 643.
Siemens "Momentan" dosage meter, Our experience with new (ab.), H. Aretz, 643.
Speedier production of finished radiograph (ab.), A. E. Barclay, 368.
Teleoradiographic unit employing single x-ray tube for both ambulatory and bed patient, W. W. Fray, 356.
Tomography II (theoretical considerations), ab., G. Grossmann, 760.

biologic effects
Frog skin, Histologic study of effects of x-rays on, A. E. Light, 734.
Heat effect of short and ultra-short electric waves and their specific action (ab.), N. N. Malov, 369.
High speed electrons and their significance in radiation therapy (ab.), R. Glocker, 513.
Mutations in fruit fly, Comparison of effect of roentgen rays on (ab.), A. Pickhan, 119.
Radiation genetic experiments dealing with time factor on fruit fly (ab.), N. W. Timofeeff-Ressovsky and K. G. Zimmer, 513.
X-rays on developing chick, Effects of, J. M. Essenberg, 739.

burns and injuries
Appeal to roentgenologists and radiologists of all nations, H. Meyer, 239.
Blood disease as result of irradiation (ab.), H. N. Brinnitzer, 126.
Burns produced by radio short wave and ultra-short wave therapy and their prevention, with additional case report of severe burn (ab.), D. H. Kling and G. O. Berg, 256.
Gastric ulcers appearing after roentgen exposure (ab.), R. B. Engelstad, 385.
Roentgen carcinoma, Contribution to problem of (ab.), R. Müller, 386.

dosage
Carcinoma of female genital organs, Further experience with protracted fractional dose method in treatment of (ab.), H. Kirchhoff, 379.
Dosage in radiation therapy (ab.), R. Paterson, 515.
Gamma rays in r-units, Dosage of (ab.), J. Murdoch and E. Stahel, 375.
Percentage depth dose and treatment times for various potentials and filters (ab.), J. Zakovsky, 375.
Physical aspects of various qualities of radiation (ab.), R. S. Landauer, 255.
Protection against radiation and scattered radiation in eighteen modern roentgen departments, Tests of (ab.) G. Heise, 644.
Roentgen-ray dose, More general definition of (ab.), W. R. Johner, 376.
Roentgen rays within the human body, Distribution of (ab.), E. H. Quimby, M. M. Copeland, and R. C. Woods, 375.
Roentgen therapy, Determination of dose in (ab.), E. Otto, 376.
Scattered radiation emitted by patients undergoing roentgen deep therapy (ab.), H. W. Ernst and P. Ott, 643.

examination
Abdominal aorta, Diagnosis of aneurysms of (ab.), A. Hartung, 381.
"Achylic chloranemia," Unusual roentgen observations in (ab.), R. Pape, 516.
Adhesive pericarditis, Roentgenkymograph as new aid in diagnosis (ab.), S. E. Johnson, 380.
Aneurysm of abdominal aorta (ab.), W. Hollmann, 123.
Aneurysm of heart, Typical case of (ab.), H. Regelsberger, 123.
Aneurysm of pulmonary artery (ab.), G. Steiner, 251.
Aorta, thoracic, Pulsatory excursions of (ab.), G. A. Weltz, 518.
Aortic pulsations, Diagnostic significance of kymographically registered (ab.), A. Kahlstorf and E. Ohnesorge, 519.
Appendix (appendiculography), Radiology of (ab.), F. G. Wood, 368.
Arteriography of extremities with thorotrast, Technical considerations in (ab.), J. R. Veal and E. M. McFetridge, 243.
Arteriography: roentgenographic study of peripheral arteries of living subject following their injection with radiopaque substance (ab.), E. V. Allen and J. D. Camp, 243.
Arthrokatadysis of hip joint; report of 5 cases, D. H. Levinthal and I. Wolin, 580.
Atherosclerosis of thoracic aorta, Roentgen diagnosis of (ab.), A. Baranova, 122.
Basal fractures of skull, Treatment of (ab.), Hesse, 127.
Blood supply of ileo-ceco-colic region in man, Radiographic studies of vascularization of (ab.), E. Rebustello, 249.
Bronchiectasis in children, Congenital, G. S. Reitter, 495.
Bronchography (ab.), A. Beutel, 126.
Calcerous cataracts, Roentgenograms of (ab.), E. von Engelmayer, 761.
Calcifications in suprarenals, Diagnostic importance of (ab.), A. Beutel, 368.
Calcium deposits in liver and its surroundings, Rare roentgenologic findings of (ab.), K. Freese, 382.
Cancer of transverse colon in 7-year-old boy (ab.), D. B. Pfeiffer and J. K. W. Wood, 244.
Carcinoma of cardia, Roentgen examination of (ab.), W. H. Stewart and H. E. Illick, 257.
Carcinoma of rectum: some causes for poor prognosis (ab.), A. J. Bargen and E. T. Leddy, 244.
Cardiospasm or hiatus-spasm (?), ab., T. Bársony and E. Koppenstein, 123.
Cecum, Migratory (ab.), J. Buckstein, 121.
Cerebral neoplasms: diagnosis in absence of generalized intracranial pressure phenomena (ab.), A. E. Bennett and J. J. Keegan, 246.
Chronic pulmonary emphysema, Roentgenologic diagnosis of (ab.), W. W. Fray, 253.
Colitis, Ulcerative: II—Factor of deficiency states (ab.), T. T. Mackie, 245.
Colon, Diverticulosis of (ab.), G. Bignami, 121.
Congenital cysts of lung, Diagnosis of (ab.), C. de Lange and M. de Bruin, 125.
Coxa magna: condition of hip related to coxa plana (ab.), A. B. Ferguson and M. B. Howorth, 251.
Cystic lung, Infected (ab.), E. Zdansky, 125.
Duodenal bulb, Roentgenkymography of (ab.), S. L. Sorkin, 516.
Duodenal carcinoma: its relationship to duodenal ulcer, I. S. Startz, 688.
Duodenal stasis, Chronic intermittent (ab.), J. Friedenwald and M. Feldman, 120.
Emphysema of lungs, Contribution to roentgenologic demonstration of (ab.), A. Anthony and W. Schwarz, 519.
Empyema or collapsed lung.? (ab.), E. Korol, 254.
Encephalo- and ventriculograms, Technic and diagnostic evaluation of (ab.), B. Schlesinger, 515.
Encephalography (ab.), K. Kornblum and F. C. Grant, 376.
Encephalography in children (ab.), A. E. Walker, 376.
Encephalography, Observations on (ab.), C. Howard, 246.
Endocrine pathology, Roentgen examination in (ab.), J. Morelle and H. Solé, 761.
Excretory and retrograde urography in certain cases, Necessity for both (ab.), D. N. Eisendrath, 517.
Expiratory roentgenogram in diagnosis of incomplete pneumothorax, Superior value of (ab.), S. Greenberg, 384.
Exudates of pleura and focal pneumonias in abdominal diseases (ab.), L. Udvardy, 254.
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.
Flat-foot: consideration of anatomy and physiology of normal foot, pathology and mechanism of flat foot, with resulting roentgen manifestations, M. Kaplan and T. Kaplan, 485.
Fluoroscopic examination of lungs, Studies of value of (ab.), W. Voigtländer, 519.
Foreign bodies in heart, Functional findings and roentgen diagnosis in (ab.), M. I. Glikin, 120.
Fractures, Multiple spontaneous idiopathic symmetrical (ab.), L. A. Milkman, 513.
Fractures of carpal scaphoid, Treatment of (ab.), R. Soto-Hall and K. O. Haldeman, 377.
Fracture of spinous process of seventh cervical vertebra and first dorsal, Six cases of isolated disruption (ab.), V. Bloch, 645.
Fracture of transverse process of lumbar vertebræ, Roentgenographic appearance of (ab.), L. Ferretti, 388.
Gall bladder, Diseases of (ab.), C. P. G. Wakeley, 516.
Gastric cancer, Early diagnosis of (ab.), F. Schreiber-Ermer, 119.
Gastric ulcer and gastric motor function, Roentgenkymograms of (ab.), C. Schilling, 517.
Gastro-intestinal tract, Changes in, in deficiency states, with special reference to small intestine: roentgenologic and clinical study (ab.), T. T. Mackie and R. E. Pound, 248.
Generalized fetal edema, Roentgenologic diagnosis of, I. H. Lockwood and F. Y. Kuhlman, 108.
Goiter, Roentgen study of chest in 200 patients with (ab.), S. J. Hawley, 379.
Heart, Relation of shape of, to shape of chest, with special reference to anteroposterior dimension and morphology of various normal heart types: contribution to question of accuracy of ordinary roentgenological methods of heart measurement (ab.), H. Roesler, 250.
Hydatid disease of lung, Radiomorphologic appearance of (ab.), R. Vercesi, 382.
Hypertrophic osteo-arthropathy, E. L. Rypins, 289.

Hysterosalpingography in sterility of women, Therapeutic importance of (ab.), J. Grünthal and R. Kleitsman, 380.
Initial tuberculous infiltrate, Roentgen manifestations of (ab.), H. Assmann, 649.
Intercondyloid fossa of knee joint, Roentgen examination of, G. Danelius and L. F. Miller, 605.
Intervertebral discs, with special reference to nuclear prolapses, Clinical importance of (ab.), G. B. Bush, 387.
Intestinal anastomoses, Roentgenologic recognition and evaluation of (ab.), E. A. Zimmer, 517.
Intestinal rotation as cause of intestinal obstruction, Anomalies of (ab.), C. E. Gardner, Jr., and D. Hart, 378.
Intestinal tuberculosis of ulcerating or cicatrizing type and its relationship to pulmonary tuberculosis (ab.), G. da Empoli, 129.
Intrathoracic neurinoma, Case of (ab.), G. M. Reviglio, 390.
Iodized oil in bronchography, Practical observations on use of (ab.), L. R. Sante, 514.
Jejunal ulcer, Roentgenologic evidence of healing of (ab.), J. Buckstein, 383.
Large bowel, Congenital malformation of (ab.), J. A. Mackenzie, 517.
Leontiasis ossea: clinical and roentgenological entity: report of case, J. H. Gemmell, 723.
Lobes of lung and interlobar fissures, Study of roentgenologic appearance of, J. Levitin and H. Brunn, 651.
Lobulus accessorius, Roentgen appearance of (ab.), J. S. Bejlin, 519.
Lungs of children, Frequency of finding of fine pleural shadows in roentgenograms of, and their dependence on roentgenologic technic (ab.), L. Schall and H. Weil, 125.
Lymphosarcoma: clinical, pathologic, and radiotherapeutic study, with report of 30 cases (ab.), M. Cutler, 382.
Malignant lymphoma of gastro-intestinal tract (ab.), A. C. Pattison, 378.
Malignant renal neoplasms, Confusing clinical manifestations of (ab.), C. D. Creevy, 762.
Maxillary sinus at various ages studied by means of roentgenograms of skull, Form, size, and position of (ab.), H. J. Sedwick, 127.
Meckel's diverticulum, Small intestinal invagination caused by (ab.), E. Reiser, 121.
Mediastinitis (ab.), K. Kornblum and L. H. Osmond, 254.
Miliary tuberculosis, Roentgenologic differential diagnosis of (ab.), S. Scheidegger, 649.
Multiple exostoses—diaphyseal aclasis (Keith), Some features of case of, N. M. Matheson, 631.
Nerve, X-ray diffraction studies on, F. O. Schmitt, R. S. Bear, and G. L. Clark, 131.
Normal and abnormal results following operation on stomach and duodenum, Roentgenologic determination of (ab.), B. R. Kirklin, 761.
Obstetrics, X-rays in (ab.), K. Heyrowsky, 122.
Osteitis fibrosa cystica and renal calculi without hypercalcemia (ab.), C. L. Robbins, 244.
Osteochondritis (ab.), J. F. Brailsford, 513.
Osteogenic sarcoma of clavicle treated with radiation and fever therapy, H. P. Doub, 355.
Osteomyelitis of skull, Roentgenologic aspects of, K. Kornblum and P. J. Hodes, 566.
Osteopoikilosis, I. S. Hirsch, 349.
Osteopoikilosis, C. G. Sutherland, 470.
Pancreatic cysts, S. Bruck, 303.
Paranephritic abscess, Roentgenograms of (ab.), O. Spitzenberger, 379.
Pelligrini-Stieda's disease (post-traumatic calcification of collateral tibial ligament of knee), ab., M. Ritvo and J. Resnik, 124.
Pelvimetry, Orthodiagraphic principle in (ab.), E. von Engelmayer, 383.
Pituitary tumors, Further observations on roentgen treatment of (ab.), G. E. Pfahler and E. W. Spackman, 647.
Plasma-cell myeloma of right ilium roentgenologically mistaken for giant-cell tumor, E. A. Pohle and W. D. Stovall, 628.
Pleural adhesions preventing effective pneumothorax collapse, Rôle of roentgenologist in proper management of, F. Baum, 730.
Pleural effusion, Localized, accompanying congestive heart failure: report of two cases, E. L. Shiflett, 429.
Pleural exudate in obstructive atelectasis of lung, Situation of (ab.), N. Westermark, 124.
Pneumothorax, Giant excavation and emphysematous bulla mistaken for: report of two cases (ab.), A. A. Karan and W. Haymaker, 383.
Prostatic calculi (ab.), L. H. Baretz, 125.
Pulmonary lesions, Discrete, roentgenologically considered, J. M. Fruchter, 609.
Pulmonary manifestations in human tularemia: clinical study based on 35 unselected cases (ab.), S. D. Blackford, 254.
Pulmonary manifestations in human tularemia: roentgenologic study based on 34 unselected cases (ab.), V. W. Archer, S. D. Blackford, and J. E. Wissler, 254.
Pulmonary syphilis in adults, with report of case, W. W. Robinson, 596.
Pulmonary tuberculosis, Interpretation of roentgenograms in (ab.), H. K. Taylor, 258.
Pulmonary ventilation, Roentgenological study of: method for prediction of normal pulmonary capacities based upon roentgen measurements (ab.), W. W. Fray, 644.
Pyelographic media, Historical and practical consideration of (ab.), A. E. Goldstein and B. S. Abeshouse, 514.
Pyrexia in chronic pulmonary tuberculosis, Significance of (ab.), M. Myers, 649.
Relations of antrum and cap to gall bladder as factors in emptying gall bladder, Further discussion of, N. B. Newcomer and E. Newcomer, 547.
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129.
Retropharyngeal tumors (ab.), L. Natanson, 646.
Rib defects simulating pulmonary cavitation, C. Jones, 533.
Roentgen diagnosis of stomach, Wrong diagnosis in (ab.), F. Eisler, 648.
Roentgenoscopy and methods of protection against them, Dangers of (general review of problem), (ab.), E. T. Leddy, E. I. L. Cilley, and B. R. Kirklin, 384.
Round shadows in thoracic roentgenogram, Case of peculiar (ab.), H. Bauer, 388.
Shoulder joint, New Technic for roentgen examination of, H. Jordan, 480.
Spine, Dislocations of cervical: some predisposing causes (ab.), T. P. Brookes, 256.
Spine, Radiologic study of development of, and pathologic changes of intervertebral disc, P. H. Malcolmson, 98.
Spondylitis deformans of cervical spine as cause of so-called brachial neuralgia and other neuralgiform pains: question of therapy (ab.), A. Ryden, 387.
Sprue, Non-tropical (chronic idiopathic steatorrhea), ed., C. D. Camp, 633.
Squamous-cell carcinoma of kidney, B. H. Nichols, 152.
Stomach and duodenum after operation (ab.), S. C. Shanks, 127.
Stomach and duodenum, Analysis of 1,000 consecutive examinations of, from clinical, roentgenologic, and surgical viewpoints, with particular reference to incidence, diagnosis, and treatment of gastric and duodenal ulcer and carcinoma of stomach (ab.), N. M. Percy and D. S. Beilin, 128.
Sublaxation of apophyseal articulations with bony impingement as cause of back pain (ab.), L. A. Hadley, 645.
Surface landmark chart for use in x-ray examinations of trunk, W. E. Anspach, 681.
Syphilitic gumma of lung: case report, P. E. Wigby and C. B. Sanders, 629.
Syringomyelia: roentgenologic diagnosis and radiotherapeutic response (ab.), E. A. Zimmer, 648.
Thorium dioxide sol (thorotrast) on human liver, Effects of L. G. Rigler, R. Koucky, and A. L. Abraham, 521.
Tracheal diverticulum: observations on cadaver and results of histologic study (ab.), E. F. Ziegelman, 649.
Tuberculosis among employees of Minneapolis schools (ab.), F. E. Harrington, J. A. Myers, and I. Levine, 257.
Tuberculosis of larynx and neck, Roentgenologic study of (ab.), H. K. Taylor and L. Nathanson, 389.
Tuberculous laryngitis and of pulmonary tuberculosis, Some observations on roentgen therapy of (ab.), B. Faccini, 390.
Typhoid diseases of bones (ab.), A. M. Rybak, 369.
Ulcer of duodenal bulb, Radiologic aspects of, with special regard to evolution and to duration of disease (ab.), G. Baldelli, 383.
Urinary tract in pregnancy and pelvic tumors, Comparison of (ab.), E. C. Baker and J. S. Lewis, Jr., 249.
Ventriculograms, Interpretation of, with special reference to tumors of temporal lobe (ab.), A. Torkildsen and A. H. Pirie, 127.
Vertebral articular facets, Developmental changes in, J. G. Kuhns, 498.
Wandering (?) of bullet: case report (ab.), Ulrich, 377.
Wandering of swallowed needle: case report (ab.), L. Bayer and K. Berg, 377.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
X-ray chest examinations among 2,500 workers in heavy industry, Results of (ab.), L. M. Warfield, 253.
Recurrent urolithiasis: etiologic factors and clinical management (ab.), L. D. Keyser, 369.
Transparency of barrier between blood and spinal fluid, Effect of roentgen rays on (ab.), A. O. Natansohn and S. A. Nikitin, 369.

films
Legal aspects of indentification and interpretation of roentgenograms (ab.), I. S. Trostler, 647.
Speedier production of finished radiograph (ab.), A. E. Barclay, 368.

filters
Aluminum filter in roentgen therapy, Regarding additional (ab.), M. Grunberg and W. Johner, 643.
Aluminum to be used in addition to copper filters, Thickness of (ab.), A. Mutscheller, 643.

fluoroscopic study
Fluoroscopic examination of lungs, Studies of value of (ab.), W. Voigtländer, 519.

therapy
Actinomycosis and roentgen therapy, with illustrative case, H. Fried, 308.
Actinomycosis of internal organs, Roentgen treatment of, with protracted fractionated method (ab.), K. Breitländer, 119.

Adenomyoma of rectovaginal septum treated by radiologic methods, H. H. Bowing, 46.
Air ionization to radiation absorbed, Relation of, and effect on body tissues, W. H. Meyer, 189.
Arthritis, Roentgen treatment of certain types of, L. H. Garland, 416.
Artificial fever upon hopeless tumor cases, Preliminary study of effect of (ab.), S. I. Warren, 761.
Benign lesions of skin, Radium dosage and technic in (ab.), H. Morrow and L. R. Taussig, 648.
Biologic systemic effect of irradiation (ab.), R. Reding, 126.
Blood changes in patients having carcinoma of cervix of uterus irradiated with 300,000-volt roentgen apparatus: report of 9 cases, S. Richman, 433.
Blood serum tests, Constitutional effects of x-rays as determined by (ab.), S. G. Scott and F. Hernaman-Johnson, 384.
Bone tumors and irradiation (ab.), L. C. Kress, 259.
Burns produced by radio short wave and ultra-short wave therapy and their prevention, with additional case report of severe burn (ab.), D. H. Kling and G. O. Berg, 256.
Cancer, Distribution and fight against (ab.), H. R. Schinz, 513.
Cancer, Fractional or single massive dose method in treatment of (ab.), A. Frank, 120.
Cancer of cervix, Radiation therapy in (ab.), W. P. Healy, 260.
Cancer of penis, Treatment of (ab.), K. Overhof, 514.
Cancer of pharynx, tonsil, and extrinsic larynx by divided doses of external radiation, Treatment of (ab.), H. E. Martin and R. F. McNattin, 371.
Carbuncles, Roentgen treatment of (ab.), W. B. Firor, 760.
Carcinoma of bladder with radon tubes, Treatment of, A. B. Friedman, 319.
Carcinoma of breast, Post-operative irradiation in (ab.), G. Schwarz, 643.
Carcinoma of breast, Relative value of surgery, radium, and roentgen therapy in (ab.), I. Levin, 760.
Carcinoma of cervix, Radiation treatment of (ab.), W. P. Healy and A. N. Arneson, 371.
Carcinoma of esophagus, Radiation therapy of (ab.), R. Hummel, 376.
Carcinoma of female genital organs, Further experience with protracted fractional dose method in treatment of (ab.), H. Kirchhoff, 379.
Carcinoma of larynx, Few end-results following radiation therapy of (ab.), A. Lambadarides, 644.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24.
Carcinoma of uterus, Some reflections regarding, with special consideration of technic in treatment of infected and febrile forms (ab.), A. S. d'Emidio, 514.
Classification of tumors from standpoint of radiosensitiveness (ab.), A. U. Desjardins, 259.
Continuous irradiation of carcinoma with roentgen rays: super-teleroentgen therapy, My method for (ab.), G. G. Palmieri, 373.
Cortical renal tumors, Pre-operative irradiation of (ab.), C. A. Waters, 646.
"Coutard" roentgen therapy, Modified (ab.), J. M. Martin and C. L. Martin, 259.
Cutaneous epithelioma, Physical therapy of (ab.), B. Faccini, 126.
Dermatology, Roentgen therapy in (ab.), J. J. Eller, 246.
Distribution of roentgen radiation within average female pelvis for different physical factors of irradiation, A. N. Arneson and E. H. Quimby, 182.
Dosage in radiation therapy (ab.), R. Paterson, 515.
Duodenorenal fistula (ab.), G. C. Biondi, 248.
Dysmenorrhea, Effect of irradiation of pituitary in, R. R. Newell and A. V. Pettit, 424.
Epitheliomas of pharynx and larynx, Roentgen therapy of (ab.), M. Lenz, C. C. Coakley, and A. P. Stout, 245.
Esophagoscopy for carcinoma of esophagus, Retrograde (transgastric), ab., G. H. Steele, 515 (516).
Female pelvis for benign lesions, Radiation therapy of, with report of 396 cases, V. M. Moore, 600.
Gastric ulcers appearing after roentgen exposure (ab.), R. B. Engelstad, 385.
Gynecology, Roentgen-ray dosimetry in "third dimension" in (ab.), F. Friedl, 122.
Hard roentgen rays and gamma rays of radium, Effect of, D. den Hoed, 57.
Hay fever and rhinitis vasomotoria, Experience in treatment of (ab.), L. Pokorny, 122.
High speed electrons and their significance in radiation therapy (ab.), R. Glocker, 513.
High voltage radiations, "Quality" of (ab.), I. W. V. Mayneord and J. E. Roberts, 386.
Hodgkin's granuloma, Changes in bone in (ab.), L. F. Craver and M. M. Copeland, 381.
Hyperparathyroidism, Roentgen therapy of (ab.), E. A. Merritt and E. M. McPeak, 255.
Hyperthyroidism by roentgen irradiation of hypophysis, Treatment of (ab.), J. Borak, 389.
Inflammatory disease, Experimental foundations of roentgen therapy in acute (ab.), J. P. Mischtschenko, M. M. Fomenko, T. F. Feszenko, S. N. Ledanow, and A. W. Morgatschow, 123.
Inhomogeneous Grenz rays, Quality determinations of (ab.), H. Steps, 379.
Intracranial disease, Technic and dosage in roentgen therapy of (ab.), M. Sgalitzer, 374.
Intracranial tumors, Radiation therapy in (ab.), A. Löw-Beer, 130.
Leukemia: diagnosis and treatment (ab.), N. Rosenthal and W. Harris, 252.
Lymphoblastoma with paraplegia and prolonged irradiation (ab.), L. F. Wheatley, 251.
Lymphosarcoma: clinical, pathologic, and radiotherapeutic study, with report of 30 cases (ab.), M. Cutler, 382.
Malignant neoplasms of bronchus and lungs, Further experience with roentgen therapy in (ab.), G. Herrnheimer, 125.
Malignant neoplasms with concentrated fractional dose method with short F. S. D., Treatment of (ab.), H. Chaoul, 372.
Malignant tumors, Coutard roentgen treatment of (ab.), J. Nielsen, 375.
Malignant tumors of testicle, Report on (ab.), W. Bloom, 646.
Monosymptomatic metrorrhagia in climacterium, Indications for roentgen therapy in (ab.), M. C. Béclère, 380.
Nervous system, Roentgen therapy of sympathetic (ab.), Delherm and Beau, 129.
Neuralgia, Radiation therapy of (ab.), A. Zimmern, P. Cottenot, and J. A. Chavany, 520.
Non-malignant ano-rectal disease, Indications for roentgen therapy in (ab.), Bensaude, Solomon, and Marchand, 123.
Osteogenic sarcoma of clavicle treated with radiation and fever therapy, H. P. Doub, 355.
Physical aspects of various qualities of radiation (ab.), R. S. Landauer, 255.
Pituitary tumors, Further observations on roentgen treatment of (ab.), G. E. Pfahler and E. W. Spackman, 647.
Primary bone tumors, Indications for radiation therapy of (ab.), F. Tomanek, 647.
Primary newgrowths involving hand (ab.), B. F. Schreiner and W. H. Wehr, 390.
Primary rectal carcinoma under radiation treatment: statistical review of 500 cases (ab.), H. H. Bowing and R. E. Fricke, 370.
Psoriasis, Irradiation in treatment of (ab.), R. Rosh, 246.
Radiation therapy, Observations on use of 800,000-volt roentgen rays in, H. Schmitz, 341.
Radiation therapy with short F.S.D. in gynecology (ab.), W. Schaefer, 380.
Retardation of bone growth following roentgen irradiation of extensive nevo-carcinoma of skin in infant four months of age, R. H. Stevens, 538.
Roentgen and radium spectrum from standpoint of practical radiation therapist, Comparison of (ab.), R. R. Rathbone, 515.
Roentgen-ray action, Methods of enhancing, A. J. Delario, 617.
Roentgen biology and of endocrine system in particular, Discussion of general (ab.), B. Faccini, 376.
Roentgen carcinoma, Contribution to problem of (ab.), R. Müller, 386.
Roentgen therapy, Determination of dose in (ab.), E. Otto, 376.
Roentgen therapy of sympathetic (ab.), C. Guarini, 388.
Sarcoma of antrum, complicated by pregnancy, treated by irradiation, Case of, A. Kean, 321.
Sarcoma of soft parts, Radiotherapy of, on basis of statistical analysis, T. Leucutia, 403.
Scattered radiation emitted by patients undergoing roentgen deep therapy (ab.), H. W. Ernst and P. Ott, 643.
Short wave radiation in rectal and vaginal conditions (ab.), M. Delherm and Mme. Fainsilber, 518.
Skin cancer with concentrated fractional dose method (Chaoul), Treatment of (ab.), G. Liebmann, 373.
Squamous-cell carcinoma of kidney, B. H. Nichols, 152.
Sterility and x-rays (ab.), M. Huhner, 250.
Sympathetic system, Radiotherapy of, in general medicine: application to dermatology (ab.), J. Gouin and A. Bienvenue, 374.
Syringomyelia: roentgenologic diagnosis and radiotherapeutic response (ab.), E. A. Zimmer, 648.
Thyroid gland, Malignant diseases of (ab.), U. V. Portmann, 388.
Tonsillitis, Roentgen therapy of (ab.), E. D. Dubowyi and I. K. Lusers, 129.
Tuberculosis of knee joint, Our experience with (ab.), V. Schiller and W. Altschul, 382.
Tuberculosis of larynx and neck, Roentgenologic study of (ab.), H. K. Taylor and L. Nathanson, 389.
Tuberculous laryngitis and of pulmonary tuberculosis, Some observations on roentgen therapy of (ab.), B. Faccini, 390.
Tuberculous lymphadenitis and orchiepididymitis, Roentgen therapy of (ab.), B. Faccini, 256.
Tumors of bladder, Roentgen diagnosis and treatment of: their serial study with pneumocystograms, showing results of treatment by irradiation (ab.), G. E. Pfahler and J. H. Vastine, 258.
Tumors of conjunctiva, X-rays and radium in treatment of, G. Peter, 745.

Ureteral obstruction in carcinomatous cervix, L. S. Drexler, 315.
Uterine bleeding, Effect of roentgen therapy of medulla oblongata on (ab.), A. Kukowka, 380.
Uterine carcinoma during last two decades, Development of radiation therapy of (ab.), F. Gal, 373.
Variable recovery factor of tissue, Considerations of, J. G. Hoffman and M. C. Reinhard, 698.
Vasomotor disturbances of extremities, Roentgen therapy in (ab.), R. Gilbert and L. Babaiantz, 650.
Vegatative nervous system, Effect of roentgen therapy on (ab.), H. Langer, 520.
Vegatative nervous system, Possible effects of roentgen and radium rays on (ab.), M. Nemenow, 520.
Xanthomatosis: case of Schüller-Christian's disease treated by irradiation, H. I. Teperson, 440.

tubes
Direction for roentgen tubes (ab.), M. Strandqvist, 119.

SARCOMA, fibroblastic
Sarcoma of soft parts, Radiotherapy of, on basis of statistical analysis, T. Leucutia, 403.

fibrosarcoma
Observations on rats with transplantable fibrosarcoma treated with cevitamic (ascorbic) acid, J. A. Pollia, 338.

lymphosarcoma
Lymphosarcoma: clinical, pathologic, and radiotherapeutic study, with report of 30 cases (ab.), M. Cutler, 382.

SCAPHOID BONE, carpal
Fractures of carpal scaphoid, Treatment of (ab.), R. Soto-Hall and K. O. Haldeman, 377.

SCHÜLLER-CHRISTIAN SYNDROME
Xanthomatosis: case of Schüller - Christian's disease treated by irradiation, H. I. Teperson, 440.

SHOULDERS
Roentgen examination of shoulder joint, New technic for, H. Jordan, 480.

SILICOSIS
Silicosis and primary carcinoma of bronchus: report of case (ab.), M. J. Fine and J. V. Jaso, 254.
X-ray chest examinations among 2,500 workers in heavy industry, Results of (ab.), L. M. Warfield, 253.

SINUSES
Basal fractures of skull, Fractures of (ab.), Hesse, 127.
Maxillary sinus at various ages studied by means of roentgenograms of skull, Form, size, and position of (ab.), H. J. Sedwick, 127.

SKIN
Dermatology, Roentgen therapy in (ab.), J. J. Eller, 246.
Frog skin, Histologic study of effects of x-rays on, A. E. Light, 734.
Grenz-ray therapy, Problems in (ab.), F. Kalz, 762.
Sensitivity of human skin to light, Contribution to (ab.) H, Danneel, 387.

cancer
Advanced malignant disease, Treatment of, L. S. Auster, 207 (210).
Basal-cell epithelioma, Histogenesis of, H. Montgomery, 8.
Benign lesions of skin, Radium dosage and technic in (ab.), H. Morrow and L. R. Taussig, 648.
Cutaneous epithelioma, Physical therapy of (ab.), B. Faccini, 126.
Retardation of bone growth following roentgen irradiation of extensive nevo-carcinoma of skin in infant four months of age, R. H. Stevens, 538
Skin cancer with concentrated fractional dose method (Chaoul), Treatment of (ab.), G. Liebmann, 373.

diseases
Radiotherapy of sympathetic system in general medicine: application to dermatology (ab.), J. Gouin and A. Bienvenue, 374.

SKULL
Basal fractures of skull, Treatment of (ab.), Hesse, 127.
Maxillary sinus at various ages studied by means of roentgenograms of skull, Form, size, and position of (ab.), H. J. Sedwick, 127.

SKULL. *See also under* **CRANIUM.**

SOCIETIES
American Society of X-ray Technicians, 111.
Australian and New Zealand Association of Radiology, 363.
Florida State Medical Association, 637.
Florida State Radiological Society, 115.
Latin-American Congress of Physical Therapy, X-ray, and Radium, Mexico City, 114.
Liverpool Medical Institution, 638.
Midsummer Radiological Conference, Denver, 114, 237.
Minnesota Radiological Society, 239.
Radiological Club of Denver, 637.

SPINAL CORD, tumors
Blood vessel tumor of spinal cord in boy aged 9 years, with special reference to new diagnostic syndrome (ab.), W. C. Black and H. K. Faber, 258.

SPINE
Development of spine, Radiologic study of, and pathologic changes of intervertebral disc, P. H. Malcolmson, 98.
Dislocations of cervical spine: some predisposing causes (ab.), T. P. Brookes, 256.
Fracture of spinous process of seventh cervical vertebra and first dorsal, Six cases of isolated disruption (ab.), V. Bloch, 645.
Fracture of transverse process of lumbar vertebræ, Roentgenographic appearance of (ab.), L. Ferretti, 388.
Fractures of vertebræ, Prognosis of (ab.), E. W. Hall, 648.
Intervertebral discs, with special reference to nuclear prolapses, Clinical importance of (ab.), G. B. Bush, 387.
Spondylitis deformans of cervical spine as cause of so-called brachial neuralgia and other neuralgiform pains: question of therapy (ab.), A. Ryden, 387.
Spondylolisthesis and slipping of vertebræ, Observations on (ab.), E. Friedl, 387.
Subluxation of apophyseal articulations with bony impingement as cause of back pain (ab.), L. A. Hadley, 645.
Surface landmark chart for use in x-ray examinations of trunk, W. E. Anspach, 681.
Vertebral articular facets, Developmental changes in, J. G. Kuhns, 498.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.

SPONDYLITIS ADOLESCENS
Blood serum tests, Constitutional effects of x-rays determined by (ab.), S. G. Scott and F. Hernaman-Johnson, 384 (385).

SPONDYLOLISTHESIS
Spondylolisthesis and slipping of vertebræ, Observations on (ab.), E. Friedl, 387.

SPRUE
Gastro-intestinal tract, Changes in, in deficiency states, with special reference to small intestine: roentgenologic and clinical study of 40 cases (ab.), T. T. Mackie and R. E. Pound, 248.
Non-tropical sprue (chronic idiopathic steatorrhea), ed., J. D. Camp, 633.

STEATORRHEA. *See* **CELIAC DISEASE.**

STERILITY
Sterility and x-rays (ab.), M. Huhner, 250.

STOMACH
Acquired diverticulum on anterior wall of stomach (ab.), R. Kaiser, 388.
Carcinoma at cardia, Roentgen diagnosis of (ab.), W. H. Stewart and H. E. Illick, 257.
Early cancerous changes in peptic ulcer, Diagnosis of (ab.), A. L. Bloomfield, 244.
Gastric cancer, Early diagnosis of (ab.), F. Schreiber-Ermer, 119.
Gastric ulcers appearing after roentgen exposure (ab.), R. B. Engelstad, 385.
Gastroscopy, Peroral, including examination of supradiaphragmatic stomach (ab.), C. Jackson and C. L. Jackson, 256.
Normal and abnormal results following operation on stomach and duodenum, Roentgenologic determination of (ab.), B. R. Kirklin, 761.
Pancreatic cysts, S. Bruck, 303.
Roentgen diagnosis of stomach, Wrong diagnosis in (ab.), F. Eisler, 648.
Scirrhous lesions of stomach and colon, Coincident: report of cases (ab.), M. L. Sussman, 644.
Stomach and duodenum after operation (ab.), S. C. Shanks, 127.
Stomach and duodenum, Analysis of 1,000 consecutive examinations of, from clinical, roentgenologic, and surgical viewpoints, with particular reference to incidence, diagnosis, and treatment of gastric and duodenal ulcer and carcinoma of stomach (ab.), N. M. Percy and D. S. Beilin 128.

SUPRARENALS, calcification
Calcifications in suprarenals, Diagnostic importance of (ab.), A. Beutel, 368.

SYPHILIS
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (32.)
Lung, Syphilitic gumma of: case report, P. E. Wigby and C. B. Sanders, 629.
Pulmonary syphilis in adults, with report of case, W. W. Robinson, 596.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159 (164).

SYRINGOMYELIA
Syringomyelia: roentgenologic diagnosis and radiotherapeutic response (ab.), E. A. Zimmer, 648.

TESTICLE
Malignant tumors of testicle, Report on (ab.), W. Bloom, 646.

THORAX
Goiter, Roentgen study of chest in 200 patients with (ab.), S. J. Hawley, 379.

THROAT, epithelioma
Epitheliomas of pharynx and larynx, Roentgen therapy of (ab.), M. Lenz, C. C. Coakley, and A. P. Stout, 245.

THROMBO-ANGIITIS OBLITERANS
Arteriography: roentgenographic study of peripheral arteries of living subject following their injection with radiopaque substance (ab.), E. V. Allen and J. D. Camp, 243.

THYMUS
Granulocytes, Does thymus influence number of? (ab.), S. Radojevic and A. Hahn, 388.

THYROID
Hyperthyroidism by roentgen irradiation of hypophysis, Treatment of (ab.), J. Borak, 389.
tumors
Thyroid gland, Malignant diseases of (ab.), U. V. Portmann, 388.
TONGUE, cancer
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (35).
TONSILS
Tonsillitis, Roentgen therapy of (ab.), E. D. Dubowyi and I. K. Lusers, 129.
cancer
Cancer of pharynx, tonsil, and extrinsic larynx by divided doses of external radiation, Treatment of (ab.), H. E. Martin and R. F. McNattin, 371.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (39).
Carcinoma of tonsils and pillars, Radium therapy of (ab.), A. S. d'Emidio, 645.
Carcinoma of tonsils, Transcutaneous curietherapy of (ab.), L. Mallet, 373.
TRACHEA
Tracheal diverticulum: observations on cadaver and results of histologic study (ab.), E. F. Ziegelman, 649.
TUBERCULOSIS of bones
Tuberculosis of knee joint, Our experience with (ab.), V. Schiller and W. Altschul, 382.
Wedge-shaped deformity of body of vertebra, Significance of, G. W. Grier, 159.
laryngeal
Tuberculosis of larynx and neck, Roentgenologic study of (ab.), H. K. Taylor and L. Nathanson, 389.
miliary
Miliary tuberculosis, Roentgenologic differential diagnosis of (ab.), S. Scheidegger, 649.
of mouth
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24 (32).
pulmonary
Bullets in lung tissue and their sequences (ab.), K. Ulrich, 120.
Death rate from tuberculosis in children, Declining: analysis of tuberculosis deaths in Minnesota from 1915 to 1932 (ab.), R. E. Boynton, 257.
Fibrin bodies in artificial pneumothorax, H. K. Taylor and I. D. Bobrowitz, 274.
Initial tuberculous infiltrate, Roentgen manifestations of (ab.), H. Assmann, 649.
Intestinal tuberculosis of ulcerating or cicatrizing type and its relationship to pulmonary tuberculosis (ab.), G. da Empoli, 129.
Pathology to epidemiology in tuberculosis, From: softening of caseous tubercle and results (ab.), E. R. Long, 257.
Pulmonary lesions, Discrete, roentgenologically considered, J. M. Fruchter, 609.
Pulmonary tuberculosis, Interpretation of roentgenograms in (ab.), H. K. Taylor, 258.
Pyrexia in chronic pulmonary tuberculosis, Significance of (ab.), M. Myers, 649.
Rib defects simulating pulmonary cavitation, C. Jones, 533.
Spontaneous hemopneumothorax, Case of (ab.), J. L. Frey, 384.
Tuberculosis among employees of Minneapolis schools (ab.), F. E. Harrington, J. A. Myers, and I. Levine, 257.
Tuberculous laryngitis and of pulmonary tuberculosis, Some observations on roentgen therapy of (ab.), B. Faccini, 390.
X-ray chest examinations among 2,500 workers in heavy industry, Results of (ab.), L. M. Warfield, 253.
TULANE UNIVERSITY SCHOOL OF MEDICINE
100th anniversary, 115.
TULAREMIA
Pulmonary manifestations in human tularemia: clinical study based on 35 unselected cases (ab.), S. D. Blackford, 254.
Pulmonary manifestations in human tularemia: roentgenologic study based on 34 unselected cases (ab.), V. W. Archer, S. D. Blackford, and J. E. Wissler, 254.
TUMORS
Artificial fever upon hopeless tumor cases, Preliminary study of effect of (ab.), S. I. Warren, 761.
Blood vessel tumor of spinal cord in boy aged 9 years, with special reference to new diagnostic syndrome (ab.), W. C. Black and H. K. Faber, 258.
Bone tumors and irradiation (ab.), L. C. Kress, 259.
Carcinoma of mouth, with especial reference to treatment, H. L. Albright, 24.
Cerebral neoplasms: diagnosis in absence of generalized intracranial pressure phenomena (ab.), A. E. Bennett and J. J. Keegan, 246.
Classification of, from standpoint of radiosensitiveness (ab.), A. U. Desjardins, 259.
Cortical renal tumors, Pre-operative irradiation of (ab.), C. A. Waters, 646.
Encephalography, Observations on (ab.), C. Howard, 246.
Female pelvis, Radiation therapy of, for benign lesions, with report of 396 cases, V. M. Moore, 600.
Intracranial disease, Technic and dosage in roentgen therapy of (ab.), M. Sgalitzer, 374.
Intrathoracic neurinoma, Case of (ab.), G. M. Reviglio, 390.
Malignant tumors, Coutard roentgen treatment of (ab.), J. Nielsen, 375.
Malignant tumors of testicle, Report on (ab.), W. Bloom, 646.
Pituitary tumors, Further observations on roentgen treatment of (ab.), G. E. Pfahler and E. W. Spackman, 647.
Primary bone tumors, Indications for radiation therapy of (ab.), F. Tomanek, 647.
Primary newgrowths involving hand (ab.), B. F. Schreiner and W. H. Wehr, 390.
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129.
Retropharyngeal tumors (ab.), L. Natanson, 646.
Tumors of bladder, Roentgen diagnosis and treatment of: their serial study with pneumocystograms, showing results of treatment by irradiation (ab.), G. E. Pfahler and J. H. Vastine, 258.
Tumors of conjunctiva, X-rays and radium in treatment of, G. Peter, 745.
Urinary tract in pregnancy and pelvic tumors, Comparison of (ab.), E. C. Baker and J. S. Lewis, Jr., 249.
adenomyoma
Adenomyoma of rectovaginal septum treated with radiologic methods, H. H. Bowing, 46.
endothelioma
Multiple endotheliomas of skin with metastasis: report of case, W. W. Robinson, 82.
epithelioma. *See* **Skin, cancer;** also under names of organs and regions.
experimental
Roentgen-ray action, Methods of enhancing, A. J. Delario, 617.
glioma
Intracranial tumors, Radiation therapy in (ab.), A. Löw-Beer, 130.
glomus
Blood vessel-nerve tumor, Beneficial effect of general body exposure to Grenz rays in severe pain due to (ab.), G. Schulte and T. Isselstein, 121.
intracranial
Intracranial tumors, Radiation therapy in (ab.), A. Löw-Beer, 130.
lymphoma
Malignant lymphoma of gastro-intestinal tract (ab.), A. C. Pattison, 378.
myeloma
Plasma-cell myeloma of right ilium roentgenologically mistaken for giant-cell tumor, E. A. Pohle and W. D. Stovall, 628.
myoma
Radium therapy in gynecological bleedings (ab.), H. Naujoks and H. Hoffmann, 121.
radioresistant
Epitheliomas of pharynx and larynx, Roentgen therapy of (ab.), M. Lenz, C. C. Coakley, and A. P. Stout, 245.
renal
Malignant renal neoplasms, Confusing clinical manifestations of (ab.), C. D. Creevy, 762.
of temporal lobe
Tumors of temporal lobe, Interpretation of ventriculograms, with special reference to (ab.), A. Torkildsen and A. H. Pirie, 127.
TYPHOID
Typhoid diseases of bones (ab.), A. M. Rybak, 369.
ULCERS, jejunal
Jejunal ulcer, Roentgenologic evidence of healing of (ab.), J. Buckstein, 383.
ULTRA-VIOLET LIGHT
Constitutional effects of x-rays as determined by blood serum tests (ab.), S. G. Scott and F. Hernaman-Johnson, 384.
Sensitivity of human skin to light, Contribution to (ab.), H. Danneel, 387.
UREA
Urea-clearance test in urinary surgery, Value of (ab.), E. W. Riches, 517.
URETHRA
Ureteral obstruction in carcinomatous cervix, L. S. Drexler, 315.
UROGRAPHY
Excretory and retrograde urography in certain cases, Necessity for both (ab.), D. N. Eisendrath, 517.
Intravenous urography in injuries to ginito-urinary tract, W. J. Corcoran 231.
Renal tumors, Present status of diagnosis of (ab.), B. H. Nichols, 129 (130).
UROLITHIASIS
Recurrent urolithiasis: etiologic and clinical management (ab.), L. D. Keyser, 369.
UTERUS
Adenomyoma of rectovaginal septum treated with radiologic methods, H. H. Bowing, 46.
Cancer of cervix, Radiation therapy of (ab.), W. P. Healy, 260.
Carcinoma of cervix of uterus, Blood changes in patients having irradiated with 300,000-volt roentgen apparatus: report of 9 cases, S. Richman, 433.
Carcinoma of cervix, Radiation treatment of (ab.), W. P. Healey and A. N. Arneson, 371.

Carcinoma of uterus, Some reflections regarding, with special consideration of technic in treatment of infected and febrile forms (ab.), A. S. d'Emidio, 514.
Medulla oblongata on uterine bleeding, Effect of roentgen therapy of (ab.), A. Kukowka, 380.
Monosymptomatic metrorrhagia in climacterium, Indications for roentgen therapy in (ab.), M. C. Béclère, 380.
Ureteral obstruction in carcinomatous cervix, L. S. Drexler, 315.
Uterine carcinoma during last two decades, Development of radiation therapy of (ab.), F. Gal, 373.

VASOMOTOR DISTURBANCES
Vasomotor disturbances of extremities, Roentgen therapy in (ab.), R. Gilbert and L. Babaiantz, 650.

VENTRICULOGRAMS
Ventriculograms, Interpretation of, with special reference to tumors of temporal lobe (ab.), A. Torkildsen and A. H. Pirie, 127.

VERTEBRÆ. *See* **SPINE.**

WRIST
Fractures of carpal scaphoid, Treatment of (ab.), R. Soto-Hall and K. O. Haldeman, 377.

XANTHOSARCOMA. *See* **SARCOMA.**

X-RAY. *See* **ROENTGEN RAY.**
